Investments in the Portfolio are not deposits or obligations of, or guaranteed or endorsed by, any bank and are not insured or guaranteed by the FDIC, the Federal Reserve Board or any other government agency. You could lose money if you sell when the Portfolio's share price is lower than when you invested.

Past performance is no guarantee of future performance. The general market views expressed in this report are opinions based on market and other conditions through the end of the reporting period and are subject to change without notice. These views are not intended to predict the future performance of the Portfolio or the securities markets. References to specific securities and their issuers are for illustrative purposes only and are not intended to be, and should not be interpreted as, recommendations to purchase or sell such securities. Such views are not meant as investment advice and may not be relied on as an indication of trading intent on behalf of the Portfolio.

This Portfolio is intended to be a funding vehicle for variable annuity contracts and variable life insurance policies (collectively "Policies") offered by the separate accounts of various insurance companies. Portfolio shares may also be offered to qualified pension and retirement plans and accounts permitting accumulation of assets on a tax-deferred basis ("Eligible Plans"). Individuals may not purchase shares directly from the Portfolio.

Prospective investors should refer to the Portfolio's prospectuses for a discussion of the Portfolio's investment objective, strategies and risks. Call J.P. Morgan Funds Service Center at 1-800-480-4111 for a prospectus containing more complete information about the Portfolio, including management fees and other expenses. Please read it carefully before investing.

CEO'S LETTER

February 14, 2019 (Unaudited)

Dear Shareholders,

The U.S. economy largely outpaced other leading economies throughout 2018 as the second-longest U.S. expansion on record continued job growth, buoyant consumer sentiment and record high corporate profits. However, the end of the year was marked by a sell-off in equity markets, unresolved global trade tensions and a political impasse that led to the shutdown of large parts of the federal government.

"While U.S. corporate profits and gross domestic product are expected to keep growing in the year ahead, it remains to be seen to what extent U.S. financial markets may benefit, given the late stage of the current economic expansion."

After advancing by 2.2% in the first quarter of 2018, growth in U.S. gross domestic product (GDP) peaked in the second quarter of 2018 at 4.2%, the first time quarterly GDP had breached the 4% ceiling since late 2014. Third quarter 2018 GDP grew at 3.4%. The unemployment rate remained historically low, dipping to 3.7% in September and October before ending the year at 3.9%.

In response, the U.S. Federal Reserve (the "Fed") raised interest rates four times during the year and indicated further, measured increases during 2019. However, slowing global growth toward the end of 2018 and financial market volatility raised questions about the Fed's planned path forward.

Meanwhile, aggregate U.S. corporate earnings and revenues reached record levels in both the second and third quarters of 2018, which provided support for U.S. equity prices. Notably, some of that profit growth was attributed to the temporary benefits of late-2017 federal tax cut legislation and the outlook for U.S. corporate earnings growth remained positive, but tempered, by the end of the reporting period.

U.S. equity prices began 2018 with solid gains. The S&P 500 Index (the "S&P 500") reached 14 new closing highs in January. Then a sharp sell-off drove prices down in early February after a brief spike in yields on the bellwether 10-year U.S. Treasury bond rattled investors. In subsequent months, equity prices

rebounded somewhat, though financial market volatility remained elevated for the rest of the year. In August, the S&P 500 again reached record highs and then another sell-off in early October was followed by gains in November. The following month was the worst December since 1931 for the S&P 500 Index, which fell 9.18% and wiped out any gains made in the previous 11 months.

At the end of the year, investors faced several growing risks to global economic growth and financial market strength. Several leading economies, particularly China and the European Union (the "EU"), showed signs of slowing growth in the latter half of the year. Trade tariffs between the U.S. and China had little apparent direct impact on the U.S. economy in 2018, but absent a negotiated resolution to their trade dispute, the negative impact of protectionist policies could rapidly escalate. Meanwhile, the final months of 2018 also saw an increase in U.S. companies warning about rising costs of materials and labor, even as global oil prices declined somewhat.

At the same time, economists generally remained optimistic about the fundamental strength of the U.S. economy. While U.S. corporate profits and gross domestic product are expected to keep growing in the year ahead, it remains to be seen to what extent U.S. financial markets may benefit, given the late stage of the current economic expansion.

Investors who hold a long-term outlook, while remaining fully invested in a well-diversified portfolio, will be best positioned, we believe, to navigate the current market environment. We look forward to managing your investment needs for years to come. Should you have any questions, please visit www.jpmorganfunds.com or contact the J.P. Morgan Funds Service Center at 1-800-480-4111.

Sincerely yours,

George C.W. Gatch
CEO, Global Funds Management
J.P. Morgan Asset Management

JPMorgan Insurance Trust Small Cap Core Portfolio

PORTFOLIO COMMENTARY

TWELVE MONTHS ENDED DECEMBER 31, 2018 (Unaudited)

REPORTING PERIOD RETURN:

Portfolio (Class 1 Shares)*	(11.93)%
Russell 2000 Index	(11.01)%
Net Assets as of 12/31/2018	\$154,459,615

INVESTMENT OBJECTIVE**

The JPMorgan Insurance Trust Small Cap Core Portfolio (the “Portfolio”) seeks capital growth over the long term.

HOW DID THE MARKET PERFORM?

U.S. equity markets posted negative returns for the reporting period, though they generally outperformed equities in both developed markets and emerging markets.

Though U.S. equity prices were largely supported by strong corporate earnings and revenue, low interest rates and an expanding domestic economy, financial markets experienced a sharp sell-off in early February. While equity prices rebounded somewhat in subsequent months, market volatility remained elevated. In August, U.S. equity prices returned to record highs and remained elevated through September. However, share prices fell sharply and market volatility spiked in early October, then rebounded slightly in November before plummeting again in December, erasing gains made over the previous twelve months.

Overall, U.S. small cap stocks underperformed both large cap and mid cap stocks, while growth stocks outperformed value stocks for the twelve months ended December 31, 2018.

WHAT WERE THE MAIN DRIVERS OF THE PORTFOLIO’S PERFORMANCE?

The Portfolio’s Class 1 Shares underperformed the Russell 2000 Index (the “Benchmark”) for the twelve months ended December 31, 2018. The Portfolio’s security selection in the media and retail sectors was a leading detractor from performance relative to the Benchmark, while the Portfolio’s security selection in the software & services sector and the energy sector was a leading contributor to relative performance.

Leading individual detractors from relative performance included the Portfolio’s overweight positions in Quad/Graphics Inc., Tenet Healthcare Corp, and Cooper Standard Holdings Inc. Shares of Quad/Graphics, a provider of printing and media

services, fell after the company reported lower-than-expected earnings and revenue for the first quarter of 2018 and after the company announced it would acquire LSC Communications Inc. Shares of Tenet Healthcare, an operator of hospitals and other health care facilities, fell after the company reported lower-than-expected hospital admissions for the third quarter of 2018 and amid regulatory uncertainty about the Affordable Care Act. Shares of Cooper Standard, a maker of automotive components, fell after the company reported lower-than-expected results for the third quarter of 2018 amid rising commodity costs and challenging market conditions in Asia and Europe.

Leading individual contributors to relative performance included the Portfolio’s overweight positions in Insperty Inc., Renewable Energy Group Inc. and Popular Inc. Shares of Insperty, a provider of employee administrative services, rose after the company reported better-than-expected earnings for several quarters. Shares of Renewable Energy Group, a producer of biofuel and renewable chemicals, rose after the company reported strong growth in quarterly earnings and the shares were added to the S&P Small Cap 600 Index. Shares of Popular, a Puerto Rico-based bank holding company that was not held in the Benchmark, rose as the company reported better-than-expected quarter results throughout 2018 and after the company announced an accelerated share repurchase program.

HOW WAS THE PORTFOLIO POSITIONED?

In accordance with its investment process, the portfolio managers take limited sector bets and construct the Portfolio so that stock selection is typically the primary driver of its relative performance versus the Benchmark. The portfolio managers employ a bottom-up approach to stock selection, using quantitative screening and proprietary analysis to construct a portfolio of companies that they believe are attractively valued and possess strong fundamentals. During the reporting period, the Portfolio was managed and positioned in accordance with this investment process.

JPMorgan Insurance Trust Small Cap Core Portfolio

PORTFOLIO COMMENTARY

TWELVE MONTHS ENDED DECEMBER 31, 2018 (Unaudited) (continued)

AVERAGE ANNUAL TOTAL RETURNS AS OF DECEMBER 31, 2018

	INCEPTION DATE OF CLASS	1 YEAR	5 YEAR	10 YEAR
CLASS 1 SHARES	January 3, 1995	(11.93)%	4.84%	12.34%
CLASS 2 SHARES	April 24, 2009	(12.19)	4.56	12.05

TEN YEAR PERFORMANCE (12/31/08 TO 12/31/18)

The performance quoted is past performance and is not a guarantee of future results. Mutual funds are subject to certain market risks. Investment returns and principal value of an investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be higher or lower than the performance data shown. For up-to-date month-end performance information please call 1-800-480-4111.

Inception date for Class 1 Shares is January 3, 1995, which is the inception date of JPMorgan Small Company Portfolio ("Predecessor Portfolio"). The JPMorgan Insurance Trust Small Cap Core Portfolio acquired all of the assets and liabilities of the Predecessor Portfolio in a reorganization on April 24, 2009. The Predecessor Portfolio's performance and financial history have been adopted by JPMorgan Insurance Trust Small Cap Core Portfolio and have been used since the reorganization. As a result, the performance for Class 1 Shares prior to April 25, 2009 is the performance of the Predecessor Portfolio.

Returns for Class 2 Shares prior to April 25, 2009 are based on the performance of Class 1 Shares. The actual returns of Class 2 Shares would have been lower than those shown because Class 2 Shares have higher expenses than Class 1 Shares and the Predecessor Portfolio.

The graph illustrates comparative performance for \$10,000 invested in Class 1 Shares of the JPMorgan Insurance Trust Small Cap Core Portfolio, the Russell 2000 Index and the Lipper Variable Underlying Funds Small-Cap Core Funds Index from December 31, 2008 to December 31, 2018. The performance of the

Portfolio assumes reinvestment of all dividends and capital gain distributions, if any. The performance of the Russell 2000 Index does not reflect the deduction of expenses associated with a mutual fund and has been adjusted to reflect reinvestment of all dividends and capital gain distributions of the securities included in the benchmark, if applicable. The performance of the Lipper Variable Underlying Funds Small-Cap Core Funds Index includes expenses associated with a mutual fund, such as investment management fees. These expenses are not identical to the expenses incurred by the Portfolio. The Russell 2000 Index is an unmanaged index which measures the performance of the 2000 smallest stocks (on the basis of capitalization) in the Russell 3000 Index. The Lipper Variable Underlying Funds Small-Cap Core Funds Index is an index based on the total returns of certain mutual funds within the Portfolio's designated category as determined by Lipper, Inc. Investors cannot invest directly in an index.

Portfolio performance does not reflect any charges imposed by the Policies or Eligible Plans. If these charges were included, the returns would be lower than shown. Portfolio performance may reflect the waiver of the Portfolio's fees and reimbursement of expenses for certain periods. Without these waivers and reimbursements, performance would have been lower.

The returns shown are based on net asset values calculated for shareholder transactions and may differ from the returns shown in the financial highlights, which reflect adjustments made to the net asset values in accordance with accounting principles generally accepted in the United States of America.

SEE NOTES TO FINANCIAL STATEMENTS.

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2018

1. Organization

JPMorgan Insurance Trust (the “Trust”) is registered under the Investment Company Act of 1940, as amended (the “1940 Act”), as an open-end management investment company and is a Massachusetts business trust.

The following is a separate Portfolio of the Trust (the “Portfolio”) covered by this report:

	Classes Offered	Diversified/Non-Diversified
JPMorgan Insurance Trust Small Cap Core Portfolio	Class 1 and Class 2	Diversified

The investment objective of the Portfolio is to seek capital growth over the long-term.

Portfolio shares are offered only to separate accounts of participating insurance companies and Eligible Plans. Individuals may not purchase shares directly from the Portfolio.

All classes of shares have equal rights as to earnings, assets and voting privileges, except that each class may bear different transfer agency fees and distribution fees and each class has exclusive voting rights with respect to its distribution plan and administrative services plan.

J.P. Morgan Investment Management Inc. (“JPMIM”), an indirect, wholly-owned subsidiary of JPMorgan Chase & Co. (“JPMorgan”), acts as Adviser (the “Adviser”) and Administrator (the “Administrator”) to the Portfolio.

2. Significant Accounting Policies

The following is a summary of significant accounting policies followed by the Portfolio in the preparation of its financial statements. The Portfolio is an investment company and, thus, follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board Accounting Standards Codification Topic 946 – *Investment Companies*, which is part of U.S. generally accepted accounting principles (“GAAP”). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.

A. Valuation of Investments – The valuation of investments is in accordance with GAAP and the Portfolio’s valuation policies set forth by and under the supervision and responsibility of the Board of Trustees (the “Board”), which established the following approach to valuation, as described more fully below: (i) investments for which market quotations are readily available shall be valued at their market value and (ii) all other investments for which market quotations are not readily available shall be valued at their fair value as determined in good faith by the Board.

The Administrator has established the J.P. Morgan Asset Management Americas Valuation Committee (“AVC”) to assist the Board with the oversight and monitoring of the valuation of the Portfolio’s investments. The Administrator implements the valuation policies of the Portfolio’s investments, as directed by the Board. The AVC oversees and carries out the policies for the valuation of investments held in the Portfolio. This includes monitoring the appropriateness of fair values based on results of ongoing valuation oversight including, but not limited to, consideration of macro or security specific events, market events and pricing vendor and broker due diligence. The Administrator is responsible for discussing and assessing the potential impacts to the fair values on an ongoing basis, and at least on a quarterly basis with the AVC and the Board.

A market-based approach is primarily used to value the Portfolio’s investments. Investments for which market quotations are not readily available are fair valued by approved affiliated and unaffiliated pricing vendors or third party broker-dealers (collectively referred to as “Pricing Services”) or may be internally fair valued using methods set forth by the valuation policies approved by the Board. This may include related or comparable assets or liabilities, recent transactions, market multiples, book values and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may be used in which the anticipated future cash flows of the investment are discounted to calculate the fair value. Discounts may also be applied due to the nature or duration of any restrictions on the disposition of the investments. Valuations may be based upon current market prices of securities that are comparable in coupon, rating, maturity and industry. It is possible that the estimated values may differ significantly from the values that would have been used, had a ready market for the investments existed, and such differences could be material.

Equities and other exchange-traded instruments are valued at the last sale price or official market closing price on the primary exchange on which the instrument is traded before the net asset values (“NAV”) of the Portfolio are calculated on a valuation date. Investments in open-end investment companies (the “Underlying Funds”) are valued at each Underlying Fund’s NAV per share as of the report date.

Futures contracts are generally valued on the basis of available market quotations.

Valuations reflected in this report are as of the report date. As a result, changes in valuation due to market events and/or issuer related events after the report date and prior to issuance of the report are not reflected herein.

The various inputs that are used in determining the valuation of the Portfolio’s investments are summarized into the three broad levels listed below.

- Level 1 – Unadjusted inputs using quoted prices in active markets for identical investments.
- Level 2 – Other significant observable inputs including, but not limited to, quoted prices for similar investments, inputs other than quoted prices that are observable for investments (such as interest rates, prepayment speeds, credit risk, etc.) or other market corroborated inputs.

- Level 3 – Significant inputs based on the best information available in the circumstances, to the extent observable inputs are not available (including the Portfolio’s assumptions in determining the fair value of investments).

A financial instrument’s level within the fair value hierarchy is based on the lowest level of any input, both individually and in the aggregate, that is significant to the fair value measurement. The inputs or methodology used for valuing instruments are not necessarily an indication of the risk associated with investing in those instruments.

The following table represents each valuation input as presented on the Schedule of Portfolio Investments (“SOI”):

	Level 1 Quoted prices	Level 2 Other significant observable inputs	Level 3 Significant unobservable inputs	Total
Total Investments in Securities (a)	<u>\$170,285,591</u>	<u>\$–(b)</u>	<u>\$–</u>	<u>\$170,285,591</u>
Depreciation in Other Financial Instruments				
Futures Contracts	<u>\$ (67,131)</u>	<u>\$–</u>	<u>\$–</u>	<u>\$ (67,131)</u>

(a) All portfolio holdings designated in level 1 and level 2 are disclosed individually in the SOI. Level 2 consists of warrants. Please refer to the SOI for industry specifics of the portfolio holdings.

(b) Value is zero.

There were no transfers among any levels during the year ended December 31, 2018.

B. Futures Contracts – The Portfolio used index futures contracts to gain or reduce exposure to the stock market, maintain liquidity or minimize transaction costs. The Portfolio also bought futures contracts to invest incoming cash in the market or sold futures in response to cash outflows, thereby simulating an invested position in the underlying index while maintaining a cash balance for liquidity. The use of futures contracts exposes the Portfolio to equity price risk.

Futures contracts provide for the delayed delivery of the underlying instrument at a fixed price or are settled for a cash amount based on the change in the value of the underlying instrument at a specific date in the future. Upon entering into a futures contract, the Portfolio is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount, which is referred to as the initial margin deposit. Subsequent payments, referred to as variation margin, are made or received by the Portfolio periodically and are based on changes in the market value of open futures contracts. Changes in the market value of open futures contracts are recorded as Change in net unrealized appreciation/depreciation on the Statement of Operations. Realized gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported on the Statement of Operations at the closing or expiration of the futures contract. Securities deposited as initial margin are designated on the SOI and cash deposited, which is considered restricted, is recorded on the Statement of Assets and Liabilities. A receivable from and/or a payable to brokers for the daily variation margin is also recorded on the Statement of Assets and Liabilities.

The Portfolio may be subject to the risk that the change in the value of the futures contract may not correlate perfectly with the underlying instrument. Use of long futures contracts subjects the Portfolio to risk of loss in excess of the amounts shown on the Statement of Assets and Liabilities, up to the notional amount of the futures contracts. Use of short futures contracts subjects the Portfolio to unlimited risk of loss. The Portfolio may enter into futures contracts only on exchanges or boards of trade. The exchange or board of trade acts as the counterparty to each futures transaction; therefore, the Portfolio’s credit risk is limited to failure of the exchange or board of trade. Under some circumstances, futures exchanges may establish daily limits on the amount that the price of a futures contract can vary from the previous day’s settlement price, which could effectively prevent liquidation of positions.

The table below discloses the volume of the Portfolio’s futures contracts activity during the year ended December 31, 2018:

Futures Contracts:

Average Notional Balance Long	\$5,253,270
Ending Notional Balance Long	6,005,720

The Portfolio’s futures contracts are not subject to master netting arrangements (the right to close out all transactions traded with a counterparty and net amounts owed or due across transactions).

C. Securities Lending – Effective October 5, 2018, the Portfolio became authorized to engage in securities lending in order to generate additional income. The Portfolio is able to lend to approved borrowers. Citibank N.A. (“Citibank”) serves as lending agent for the Portfolio, pursuant to a Securities Lending Agency Agreement (the “Securities Lending Agency Agreement”). Securities loaned are collateralized by cash equal to at least 100% of the market value plus accrued interest on the securities lent, which is invested in the IM Shares of JPMorgan U.S. Government Money Market Fund. The Portfolio retains loan fees and the interest on cash collateral investments but is required to pay the borrower a rebate for the use of cash collateral. In cases where the lent security is of high value to borrowers, there may be a negative rebate (i.e., a net payment from the borrower to the Portfolio). Upon termination of a loan, the Portfolio is required to return to the borrower an amount equal to the cash collateral, plus any rebate owed to the borrowers. The remaining maturities of the securities lending transactions are considered overnight and continuous. Loans are subject to termination by the Portfolio or the borrower at any time.

NOTES TO FINANCIAL STATEMENTS
AS OF DECEMBER 31, 2018 (continued)

The net income earned on the securities lending (after payment of rebates and Citibank's fee) is included on the Statement of Operations as Income from securities lending (net). The Portfolio also receives payments from the borrower during the period of the loan, equivalent to dividends and interest earned on the securities loaned, which are recorded as Dividend or Interest income, respectively, on the Statement of Operations.

	Dividend Income
	\$14,051

Under the Securities Lending Agency Agreement, Citibank marks to market the loaned securities on a daily basis. In the event the cash received from the borrower is less than 102% of the value of the loaned securities (105% for loans of non-U.S. securities), Citibank requests additional cash from the borrower so as to maintain a collateralization level of at least 102% of the value of the loaned securities plus accrued interest (105% for loans of non-U.S. securities).

The value of securities out on loan is recorded as an asset on the Statement of Assets and Liabilities. The value of the cash collateral received is recorded as a liability on the Statement of Assets and Liabilities and details of Collateral Investments are disclosed on the SOI. At December 31, 2018, the value of outstanding securities on loan and the value of Collateral investments were as follows:

	Value of Securities on Loan	Cash Collateral Posted by Borrower	Total value of Collateral Investments
	\$4,565,885	\$4,600,040	\$4,600,040

The Portfolio bears the risk of loss associated with the Collateral Investments and is not entitled to additional collateral from the borrower to cover any such losses. To the extent that the value of the Collateral Investments declines below the amount owed to a borrower, the Portfolio may incur losses that exceed the amount it earned on lending the security. Upon termination of a loan, the Portfolio may use leverage (borrow money) to repay the borrower for cash collateral posted if the Adviser does not believe that it is prudent to sell the Collateral Investments to fund the payment of this liability.

The following table presents the Portfolio's value of the securities on loan with Citibank, net of amounts available for offset under the master netting arrangements and any related collateral received or posted by the Portfolio as of December 31, 2018.

	Investment Securities on Loan, at value, Presented on the Statement of Assets and Liabilities	Cash Collateral Posted by Borrower	Net Amount Due to Counterparty (not less than zero)
	\$4,565,885	\$(4,565,885)	\$-

Securities lending also involves counterparty risks, including the risk that the loaned securities may not be returned in a timely manner or at all. Subject to certain conditions, Citibank has agreed to indemnify the Portfolio from losses resulting from a borrower's failure to return a loaned security.

JPMIM voluntarily waived investment advisory fees charged to the Portfolio to reduce the impact of the investment in the JPMorgan U.S. Government Money Market Fund from 0.16% to 0.06%. JPMIM waived fees associated with the Portfolio's investment in JPMorgan U.S. Government Money Market Fund as follows:

	\$597
--	-------

The above waiver is included in the determination of earnings on cash collateral investment and in the calculation of Citibank's compensation and is included on the Statement of Operations as Income from securities lending (net).

D. Investment Transactions with Affiliates – The Portfolio invested in Underlying Funds which are advised by the Adviser or its affiliates. An issuer which is under common control with the Portfolio may be considered an affiliate. For the purposes of the financial statements, the Portfolio assumes

the issuers listed in the table below to be affiliated issuers. Underlying Funds' distributions may be reinvested into the Underlying Funds. Reinvestment amounts are included in the purchase cost amounts in the table below.

For the year ended December 31, 2018

Security Description	Value at December 31, 2017	Purchases at Cost	Proceeds from Sales	Net Realized Gain (Loss)	Change in Unrealized Appreciation/ (Depreciation)	Value at December 31, 2018	Shares at December 31, 2018	Dividend Income	Capital Gain Distributions
JPMorgan U.S. Government Money Market Fund Class IM Shares, 2.46% (a) (b)	\$	– \$11,813,215	\$ 7,213,175	\$–	\$–	\$ 4,600,040	4,600,040	\$ 14,051*	\$–
JPMorgan U.S. Government Money Market Fund Class Institutional Shares, 2.40% (a) (b)	<u>3,446,991</u>	<u>68,846,973</u>	<u>54,295,707</u>	<u>–</u>	<u>–</u>	<u>17,998,257</u>	<u>17,998,257</u>	<u>102,403</u>	<u>–</u>
Total	<u><u>\$3,446,991</u></u>	<u><u>\$80,660,188</u></u>	<u><u>\$61,508,882</u></u>	<u><u>\$–</u></u>	<u><u>\$–</u></u>	<u><u>\$22,598,297</u></u>		<u><u>\$116,454</u></u>	<u><u>\$–</u></u>

(a) Investment in affiliate. Fund is registered under the Investment Company Act of 1940, as amended, and advised by J.P. Morgan Investment Management Inc.

(b) The rate shown is the current yield as of December 31, 2018.

* Amount is included on the Statement of Operations as Income from securities lending (net).

E. Security Transactions and Investment Income – Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). Securities gains and losses are calculated on a specifically identified cost basis. Interest income is determined on the basis of coupon interest accrued using the effective interest method which adjusts for amortization of premiums and accretion of discounts. Dividend income, net of foreign taxes withheld, if any, is recorded on the ex-dividend date or when the Portfolio first learns of the dividend.

To the extent such information is publicly available, the Portfolio records distributions received in excess of income earned from underlying investments as a reduction of cost of investments and/or realized gain. Such amounts are based on estimates if actual amounts are not available and actual amounts of income, realized gain and return of capital may differ from the estimated amounts. The Portfolio adjusts the estimated amounts of the components of distributions (and consequently its net investment income) as necessary once the issuers provide information about the actual composition of the distributions.

F. Allocation of Income and Expenses – Expenses directly attributable to a portfolio are charged directly to that portfolio, while the expenses attributable to more than one portfolio of the Trust are allocated among the respective portfolios. In calculating the NAV of each class, investment income, realized and unrealized gains and losses and expenses, other than class-specific expenses, are allocated daily to each class of shares based upon the proportion of net assets of each class at the beginning of each day.

G. Federal Income Taxes – The Portfolio is treated as a separate taxable entity for Federal income tax purposes. The Portfolio's policy is to comply with the provisions of the Internal Revenue Code (the "Code"), applicable to regulated investment companies and to distribute to shareholders all of its distributable net investment income and net realized capital gains on investments. Accordingly, no provision for Federal income tax is necessary. The Portfolio is also a segregated portfolio of assets for insurance purposes and intends to comply with the diversification requirements of Subchapter L of the Code. Management has reviewed the Portfolio's tax positions for all open tax years and has determined that as of December 31, 2018, no liability for income tax is required in the Portfolio's financial statements for net unrecognized tax benefits. However, management's conclusions may be subject to future review based on changes in, or the interpretation of, the accounting standards or tax laws and regulations. The Portfolio's Federal tax returns for the prior three fiscal years remain subject to examination by the Internal Revenue Service.

H. Distributions to Shareholders – Distributions from net investment income, if any, are generally declared and paid at least annually and are declared separately for each class. No class has preferential dividend rights; differences in per share rates are due to differences in separate class expenses. Net realized capital gains, if any, are distributed at least annually. The amount of distributions from net investment income and net realized capital gains is determined in accordance with Federal income tax regulations, which may differ from GAAP. To the extent these "book/tax" differences are permanent in nature (i.e., that they result from other than timing of recognition – "temporary differences"), such amounts are reclassified within the capital accounts based on their Federal tax-basis treatment.

The following amounts were reclassified within the capital accounts:

Paid-in-Capital	Accumulated undistributed (distributions in excess of) net investment income	Accumulated net realized gains (losses)
\$–	\$(52,662)	\$52,662

The reclassifications for the Portfolio relate primarily to non-taxable dividends.

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2018 (continued)

3. Fees and Other Transactions with Affiliates

A. Investment Advisory Fee — Pursuant to an Investment Advisory Agreement, the Adviser supervises the investments of the Portfolio and for such services is paid a fee. The fee is accrued daily and paid monthly based on the Portfolio's average daily net assets at an annual rate of 0.65%.

The Adviser waived Investment Advisory Fees and/or reimbursed expenses as outlined in Note 3.E.

B. Administration Fee — Pursuant to an Administration Agreement, the Administrator provides certain administration services to the Portfolio. In consideration of these services during the year ended December 31, 2018, the Administrator received a fee that was accrued daily and paid monthly at an annual rate of 0.15% of the first \$25 billion of the average daily net assets of all funds in the J.P. Morgan Funds Complex covered by the Administration Agreement (excluding certain funds of funds and money market funds) and 0.075% of the average daily net assets in excess of \$25 billion of all such funds. For the year ended December 31, 2018, the effective rate was 0.08% of the Portfolio's average daily net assets, notwithstanding any fee waivers and/or expense reimbursements.

JPMorgan Chase Bank, N.A. ("JPMCB"), a wholly-owned subsidiary of JPMorgan, serves as the Portfolio's sub-administrator (the "Sub-administrator"). For its services as Sub-administrator, JPMCB receives a portion of the fees payable to the Administrator.

The Administrator waived Administration Fees as outlined in Note 3.E.

Effective January 1, 2019, the Administrator receives a fee accrued daily and paid monthly at an annual rate of 0.075% of the first \$10 billion of the Portfolio's average daily net assets, 0.050% of the Portfolio's average daily net assets between \$10 billion and \$20 billion, 0.025% of the Portfolio's average daily net assets between \$20 billion and \$25 billion and 0.01% of the Portfolio's daily average net assets in excess of \$25 billion.

C. Distribution Fees — Pursuant to a Distribution Agreement, JPMorgan Distribution Services, Inc. ("JPMDS"), an indirect, wholly-owned subsidiary of JPMorgan, serves as the Trust's principal underwriter and promotes and arranges for the sale of the Portfolio's shares.

The Board has adopted a Distribution Plan (the "Distribution Plan") for Class 2 Shares of the Portfolio in accordance with Rule 12b-1 under the 1940 Act. The Class 1 Shares do not charge a distribution fee. The Distribution Plan provides that the Portfolio shall pay distribution fees, including payments to JPMDS, at an annual rate of 0.25% of the average daily net assets of Class 2 Shares.

D. Custodian and Accounting Fees — JPMCB provides portfolio custody and accounting services to the Portfolio. For performing these services, the Portfolio pays JPMCB transaction and asset-based fees that vary according to the number of transactions and positions, plus out-of-pocket expenses. The amounts paid directly to JPMCB by the Portfolio for custody and accounting services are included in Custodian and accounting fees on the Statement of Operations. Interest income earned on cash balances at the custodian, if any, is included in Interest income from affiliates on the Statement of Operations. Prior to March 1, 2018, payments to the custodian were reduced by credits earned by the Portfolio, based on uninvested cash balances held by the custodian. Such earnings credits, if any, are presented separately on the Statement of Operations.

Interest expense paid to the custodian related to cash overdrafts, if any, is included in Interest expense to affiliates on the Statement of Operations.

E. Waivers and Reimbursements — The Adviser (for all share classes), Administrator (for all share classes) and/or JPMDS (for Class 2 Shares) have contractually agreed to waive fees and/or reimburse the Portfolio to the extent that total annual operating expenses of the Portfolio (excluding acquired fund fees and expenses, other than certain money market fund fees as described below, dividend and interest expenses related to short sales, interest, taxes, expenses related to litigation and potential litigation and extraordinary expenses) exceed the percentages of the Portfolio's respective average daily net assets as shown in the table below:

	Class 1	Class 2
	1.03%	1.28%

The expense limitation agreement was in effect for the year ended December 31, 2018 and is in place until at least April 30, 2019.

In addition, certain affiliates of the Adviser participated in selling variable insurance contracts that included the Portfolio as an investment option to variable insurance contract owners who hold such contracts in retirement plans and/or individual retirement accounts ("covered sales"). The Adviser, Administrator and/or Distributor voluntarily waived certain fees to which they were otherwise entitled with respect to covered sales in order to avoid potential conflicts of interest that may have arose under the United States Department of Labor's revised regulations defining fiduciary advice. The amount of the covered sales waiver was based upon fees payable to the Adviser, the Administrator, the Distributor and JPMCB, as custodian and fund accounting agent, that the Adviser can attribute to assets in the Portfolio as a result of covered sales.

For the year ended December 31, 2018, the Portfolio's service providers waived fees for the Portfolio as follows. None of these parties expect the Portfolio to repay any such waived fees in future years.

	Voluntary Waivers
	Investment Advisory Fees
	\$1,904

Additionally, the Portfolio may invest in one or more money market funds advised by the Adviser or its affiliates (affiliated money market funds). The Adviser, Administrator and/or JPMS have contractually agreed to waive fees and/or reimburse expenses in an amount sufficient to offset the respective net fees each collects from the affiliated money market fund on the Portfolio's investment in such affiliated money market fund.

The amount of waivers resulting from investments in these money market funds for the year ended December 31, 2018 was \$10,248.

F. Other – Certain officers of the Trust are affiliated with the Adviser, the Administrator and JPMS. Such officers, with the exception of the Chief Compliance Officer, receive no compensation from the Portfolio for serving in their respective roles.

The Board appointed a Chief Compliance Officer to the Portfolio in accordance with Federal securities regulations. The Portfolio, along with other affiliated portfolios, makes reimbursement payments, on a pro-rata basis, to the Administrator for a portion of the fees associated with the Office of the Chief Compliance Officer. Such fees are included in Trustees' and Chief Compliance Officer's fees on the Statement of Operations.

The Trust adopted a Trustee Deferred Compensation Plan (the "Plan") which allows the Independent Trustees to defer the receipt of all or a portion of compensation related to performance of their duties as Trustees. The deferred fees are invested in various J.P. Morgan Funds until distribution in accordance with the Plan.

During the year ended December 31, 2018, the Portfolio purchased securities from an underwriting syndicate in which the principal underwriter or members of the syndicate were affiliated with the Adviser.

The Portfolio may use related party broker-dealers. For the year ended December 31, 2018, the Portfolio did not incur any brokerage commissions with broker-dealers affiliated with the Adviser.

The Securities and Exchange Commission ("SEC") has granted an exemptive order permitting the Portfolio to engage in principal transactions with J.P. Morgan Securities, Inc., an affiliated broker, involving taxable money market instruments, subject to certain conditions.

As of December 31, 2018, the Portfolio had an amount payable to and a receivable from affiliates due to an operational error.

4. Investment Transactions

During the year ended December 31, 2018, purchases and sales of investments (excluding short-term investments) were as follows:

	Purchases (excluding U.S. Government)	Sales (excluding U.S. Government)
	\$108,841,061	\$126,804,562

During the year ended December 31, 2018, there were no purchases or sales of U.S. Government Securities.

5. Federal Income Tax Matters

For Federal income tax purposes, the estimated cost and unrealized appreciation (depreciation) in value of investments held at December 31, 2018 were as follows:

	Aggregate Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
	\$163,949,816	\$27,862,026	\$21,593,382	\$6,268,644

The difference between book and tax basis appreciation (depreciation) on investments is primarily attributed to wash sale loss deferrals.

The tax character of distributions paid during the year ended December 31, 2018 was as follows:

	Ordinary Income*	Net Long-Term Capital Gains	Total Distributions Paid
	\$4,253,968	\$8,624,705	\$12,878,673

* Short-term gain distributions are treated as ordinary income for income tax purposes.

The tax character of distributions paid during the year ended December 31, 2017 was as follows:

	Ordinary Income*	Net Long-Term Capital Gains	Total Distributions Paid
	\$574,009	\$1,267,146	\$1,841,155

* Short-term gain distributions are treated as ordinary income for income tax purposes.

NOTES TO FINANCIAL STATEMENTS

AS OF DECEMBER 31, 2018 (continued)

As of December 31, 2018, the estimated components of net assets (excluding paid-in-capital) on a tax basis were as follows:

	Current Distributable Ordinary Income	Current Distributable Long-Term Capital Gain or (Tax Basis Capital Loss Carryover)	Unrealized Appreciation (Depreciation)
	\$2,816,895	\$19,948,400	\$6,268,644

The cumulative timing differences primarily consist of wash sale loss deferrals.

At December 31, 2018, the Portfolio did not have any net capital loss carryforwards.

6. Borrowings

The Portfolio relies upon an exemptive order granted by the SEC (the "Order") permitting the establishment and operation of an Interfund Lending Facility (the "Facility"). The Facility allows the Portfolio to directly lend and borrow money to or from any other fund relying upon the Order at rates beneficial to both the borrowing and lending funds. Advances under the Facility are taken primarily for temporary or emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities, and are subject to the Portfolio's borrowing restrictions. The Interfund loan rate is determined, as specified in the Order, by averaging the current repurchase agreement rate and the current bank loan rate. The Order was granted to the Trust and may be relied upon by the Portfolio because the Portfolio and the series of the Trust are all investment companies in the same "group of investment companies" (as defined in Section 12(d)(1)(G) of the 1940 Act).

The Trust and JPMCB have entered into a financing arrangement. Under this arrangement, JPMCB provides an unsecured, uncommitted credit facility in the aggregate amount of \$100 million to certain of the J.P. Morgan Funds, including the Portfolio. Advances under the arrangement are taken primarily for temporary or emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities, and are subject to the Portfolio's borrowing restrictions. Interest on borrowings is payable at a rate determined by JPMCB at the time of borrowing. This agreement has been extended until November 4, 2019.

The Portfolio had no borrowings outstanding from the unsecured, uncommitted credit facility during the year ended December 31, 2018.

The Trust, along with certain other trusts ("Borrowers"), has entered into a joint syndicated senior unsecured revolving credit facility totaling \$1.5 billion ("Credit Facility") with various lenders and The Bank of New York Mellon, as administrative agent for the lenders. This Credit Facility provides a source of funds to the Borrowers for temporary and emergency purposes, including the meeting of redemption requests that otherwise might require the untimely disposition of securities. Under the terms of the Credit Facility, a borrowing portfolio must have a minimum of \$25,000,000 in adjusted net asset value and not exceed certain adjusted net asset coverage ratios prior to and during the time in which any borrowings are outstanding. If a portfolio does not comply with the aforementioned requirements, the portfolio must remediate within three business days with respect to the \$25,000,000 minimum adjusted net asset value or within one business day with respect to certain asset coverage ratios or the administrative agent at the request of, or with the consent of, the lenders may terminate the Credit Facility and declare any outstanding borrowings to be due and payable immediately.

Interest associated with any borrowing under the Credit Facility is charged to the borrowing portfolio at a rate of interest equal to 1.00% plus the greater of the federal funds effective rate or one month LIBOR. The annual commitment fee to maintain the Credit Facility is 0.15% and is incurred on the unused portion of the Credit Facility and is allocated to all participating portfolios pro rata based on their respective net assets. Effective August 14, 2018, this agreement has been amended and restated for a term of 364 days, unless extended. The Portfolio did not utilize the Credit Facility during the year ended December 31, 2018.

7. Risks, Concentrations and Indemnifications

In the normal course of business, the Portfolio enters into contracts that contain a variety of representations which provide general indemnifications. The Portfolio's maximum exposure under these arrangements is unknown. The amount of exposure would depend on future claims that may be brought against the Portfolio. However, based on experience, the Portfolio expects the risk of loss to be remote.

As of December 31, 2018, the Portfolio had two omnibus accounts which collectively represented 56.3% of the Portfolio's net assets. Significant shareholder transactions by these shareholders may impact the Portfolio's performance.

8. New Accounting Pronouncements

In August 2018, the Financial Accounting Standard Board ("FASB") issued *Accounting Standard Update ("ASU") 2018-13 ("ASU 2018-13") Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*, which adds, removes, and modifies certain aspects of the fair value disclosure. ASU 2018-13 amendments are the result of a broader disclosure project, FASB Concepts Statement *Conceptual Framework for Financial Reporting – Chapter 8: Notes to Financial Statements*, to improve the effectiveness of the fair value disclosure requirements. ASU 2018-13 is effective for the fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019; early adoption is permitted. We have evaluated the implications of these changes and the amendments are included in the financial statements, which had no effect to the Portfolio's net assets or results of operation.

In August 2018, the SEC adopted their Disclosure Update and Simplification Rule (the “Rule”). The Rule is part of the SEC’s overall project to improve disclosure effectiveness by amending certain disclosure requirements that have become redundant, duplicative, overlapping, outdated, or superseded in light of other SEC disclosure requirements, U.S. GAAP, or changes in the information environment. The amendments are intended to facilitate the disclosure of information to investors and simplify compliance without significantly altering the total mix of information provided to investors. We have evaluated the implications of these changes and the amendments are included in the financial statements, which had no effect on the Portfolio’s net assets or results of operation.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Trustees of JPMorgan Insurance Trust and Shareholders of JPMorgan Insurance Trust Small Cap Core Portfolio

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities, including the schedule of portfolio investments, of JPMorgan Insurance Trust Small Cap Core Portfolio (one of the portfolios constituting JPMorgan Insurance Trust, referred to hereafter as the “Portfolio”) as of December 31, 2018, the related statement of operations for the year ended December 31, 2018, the statements of changes in net assets for each of the two years in the period ended December 31, 2018, including the related notes, and the financial highlights for each of the five years in the period ended December 31, 2018 (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Portfolio as of December 31, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period ended December 31, 2018 and the financial highlights for each of the five years in the period ended December 31, 2018 in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

These financial statements are the responsibility of the Portfolio’s management. Our responsibility is to express an opinion on the Portfolio’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Portfolio in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits of these financial statements in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of December 31, 2018 by correspondence with the custodian, transfer agent and brokers; when replies were not received from brokers, we performed other auditing procedures. We believe that our audits provide a reasonable basis for our opinion.

/s/ PricewaterhouseCoopers LLP
New York, New York
February 14, 2019

We have served as the auditor of one or more investment companies in the JPMorgan Funds complex since 1993.

Name (Year of Birth); Positions With the Portfolio (1)	Principal Occupation During Past 5 Years	Number of Portfolios in Fund Complex Overseen by Trustee (2)	Other Directorships Held During the Past 5 Years
Independent Trustees (continued)			
James J. Schonbachler**** (1943); Trustee of Trust since 2005; Trustee of heritage J.P. Morgan Funds since 2001.	Retired; Managing Director of Bankers Trust Company (financial services) (serving in various roles 1968-1998).	136	None

(1) The Trustees serve for an indefinite term, subject to the Trust's current retirement policy, which is age 78 for all Trustees.

(2) A Fund Complex means two or more registered investment companies that hold themselves out to investors as related companies for purposes of investment and investor services or have a common investment adviser or have an investment adviser that is an affiliated person of the investment adviser of any of the other registered investment companies. The J.P. Morgan Funds Complex for which the Board of Trustees serves currently includes eleven registered investment companies (136 funds).

* Two family members of Mr. Harrington are partner and managing director, respectively, of the Portfolio's independent registered public accounting firm. Such firm has represented to the Board that those family members are not involved in the audit of the Portfolio's financial statements and do not provide other services to the Portfolio. The Board has concluded that such association does not interfere with Mr. Harrington's exercise of independent judgment as an Independent Trustee.

** A family member of Mr. Kanner is employed by JPMorgan Chase Bank, which is affiliated with JPMIM and JPMDS. In that capacity, this employee provides services to various JPMorgan affiliates including JPMIM and JPMDS and for which JPMIM and JPMDS bear some portion of the expense thereof.

*** In connection with prior employment with JPMorgan Chase, Ms. Pardo was the recipient of non-qualified pension plan payments from JPMorgan Chase in the amount of approximately \$2,055 per month, which she irrevocably waived effective January 1, 2013, and deferred compensation payments from JPMorgan Chase in the amount of approximately \$7,294 per year, which ended in January 2013. In addition, Ms. Pardo receives payments from a fully-funded qualified plan, which is not an obligation of JPMorgan Chase.

**** Mr. Schonbachler retired effective December 31, 2018.

The contact address for each of the Trustees is 270 Park Avenue, New York, NY 10017.

OFFICERS

(Unaudited)

Name (Year of Birth), Positions Held with the Trust (Since)	Principal Occupations During Past 5 Years
Brian S. Shlissel (1964), President and Principal Executive Officer (2016)	Managing Director and Chief Administrative Officer for J.P. Morgan pooled vehicles, J.P. Morgan Investment Management Inc. (formerly JPMorgan Funds Management, Inc.) Gillian I. Sands (1969), Assistant Treasurer (2012)*	Vice President, J.P. Morgan Investment Management Inc. (formerly JPMorgan Funds Management, Inc.) since September 2012.

The contact address for each of the officers, unless otherwise noted, is 270 Park Avenue, New York, NY 10017.

* The contact address for the officer is 4 New York Plaza, New York, NY 10004.

** The contact address for the officer is 1111 Polaris Parkway, Columbus, OH 43240.

SCHEDULE OF SHAREHOLDER EXPENSES

(Unaudited)

Hypothetical \$1,000 Investment

As a shareholder of the Portfolio, you incur ongoing costs, including investment advisory fees, administration fees, distribution fees (for Class 2 Shares) and other Portfolio expenses. Because the Portfolio is a funding vehicle for Policies and Eligible Plans, you may also incur sales charges and other fees relating to the Policies or Eligible Plans. The examples below are intended to help you understand your ongoing costs (in dollars) of investing in the Portfolio, but not the costs of the Policies or Eligible Plans, and to compare these ongoing costs with the ongoing costs of investing in other mutual funds. The examples assume that you had a \$1,000 investment in each Class at the beginning of the reporting period, July 1, 2018, and continued to hold your shares at the end of the reporting period, December 31, 2018.

Actual Expenses

For each Class of the Portfolio in the table below, the first line provides information about actual account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line of each Class under the heading entitled "Expenses Paid During the Period" to estimate the expenses you paid on your account during this period.

Hypothetical Example for Comparison Purposes

The second line of each Class in the table below provides information about hypothetical account values and hypothetical expenses based on the Class' actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Class' actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in the Class of the Portfolio and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of the other funds. Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transaction costs, such as sales charges (loads) or redemption fees or the costs associated with the Policies and Eligible Plans through which the Portfolio is held. Therefore, the second line for each Class in the table is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher. The examples also assume all dividends and distributions have been reinvested.

	Beginning Account Value July 1, 2018	Ending Account Value December 31, 2018	Expenses Paid During the Period*	Annualized Expense Ratio
JPMorgan Insurance Trust Small Cap Core Portfolio				
Class 1				
Actual	\$1,000.00	\$ 814.70	\$3.75	0.82%
Hypothetical	1,000.00	1,021.07	4.18	0.82
Class 2				
Actual	1,000.00	813.90	5.03	1.10
Hypothetical	1,000.00	1,019.66	5.60	1.10

* Expenses are equal to each Class' respective annualized expense ratio, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period).

BOARD APPROVAL OF INVESTMENT ADVISORY AGREEMENT

(Unaudited)

The Board of Trustees has established various standing committees composed of Trustees with diverse backgrounds, to which the Board of Trustees has assigned specific subject matter responsibilities to further enhance the effectiveness of the Board's oversight and decision making. The Board of Trustees and its investment committees (money market and alternative products, equity, and fixed income) meet regularly throughout the year and consider factors that are relevant to their annual consideration of investment advisory agreements at each meeting. They also meet for the specific purpose of considering investment advisory agreement annual renewals. The Board of Trustees held meetings in person in June and August 2018, at which the Trustees considered the continuation of the investment advisory agreement for the Portfolio whose annual report is contained herein (the "Advisory Agreement"). At the June meeting, the Board's investment committees met to review and consider performance, expense and related information for the J.P. Morgan Funds. Each investment committee reported to the full Board, which then considered the investment committee's preliminary findings. At the August meeting, the Trustees continued their review and consideration. The Trustees, including a majority of the Trustees who are not "interested persons" (as defined in the 1940 Act) of any party to the Advisory Agreement or any of their affiliates, approved the continuation of the Advisory Agreement on August 15, 2018.

As part of their review of the Advisory Agreement, the Trustees considered and reviewed performance and other information about the Portfolio received from the Adviser. This information includes the Portfolio's performance as compared to the performance of its peers and benchmarks and analyses by the Adviser of the Portfolio's performance. In addition, the Trustees have engaged an independent management consulting firm ("independent consultant") to report on the performance of certain J.P. Morgan Funds at each of the Trustees' regular meetings. In addition, in preparation for the June and August meetings, the Trustees requested, received and evaluated extensive materials from the Adviser, including performance and expense information compiled by Broadridge, using data from Lipper Inc., independent providers of investment company data (together, "Broadridge/Lipper"). Before voting on the Advisory Agreement, the Trustees reviewed the Advisory Agreement with representatives of the Adviser, counsel to the Trust and independent legal counsel and received a memorandum from independent legal counsel to the Trustees discussing the legal standards for their consideration of the Advisory Agreement. The Trustees also discussed the Advisory Agreement in executive sessions with independent legal counsel at which no representatives of the Adviser were present.

A summary of the material factors evaluated by the Trustees in determining whether to approve the Advisory Agreement is provided below. Each Trustee attributed different weights to the various factors and no factor alone was considered determinative. The Trustees considered information provided

with respect to the Portfolio throughout the year, as well as materials furnished specifically in connection with the annual review process. From year to year, the Trustees consider and place emphasis on relevant information in light of changing circumstances in market and economic conditions.

After considering and weighing the factors and information they had received, the Trustees found that the compensation to be received by the Adviser from the Portfolio under the Advisory Agreement was fair and reasonable under the circumstances and determined that the continuance of the Advisory Agreement was in the best interests of the Portfolio and its shareholders.

Nature, Extent and Quality of Services Provided by the Adviser

The Trustees received and considered information regarding the nature, extent and quality of services provided to the Portfolio under the Advisory Agreement. The Trustees took into account information furnished throughout the year at Trustee meetings, as well as the materials furnished specifically in connection with this annual review process. The Trustees considered the background and experience of the Adviser's senior management and the expertise of, and the amount of attention given to the Portfolio by, investment personnel of the Adviser. In addition, the Trustees reviewed the qualifications, backgrounds and responsibilities of the portfolio management team primarily responsible for the day-to-day management of the Portfolio and the infrastructure supporting the team, including personnel changes. The Trustees also considered information provided by the Adviser and JPMorgan Distribution Services, Inc. ("JPMDS") about the structure and distribution strategy of the Portfolio. The Trustees reviewed information relating to the Adviser's risk governance model and reports showing the Adviser's compliance structure and ongoing compliance processes. The Trustees also considered the quality of the administrative services provided by the Adviser in its role as administrator.

The Trustees also considered their knowledge of the nature and quality of the services provided by the Adviser and its affiliates to the Portfolio gained from their experience as Trustees of the J.P. Morgan Funds. In addition, they considered the overall reputation and capabilities of the Adviser and its affiliates, the commitment of the Adviser to provide high quality service to the Portfolio, their overall confidence in the Adviser's integrity and the Adviser's responsiveness to questions or concerns raised by them, including the Adviser's willingness to consider and implement organizational and operational changes designed to improve investment results and the services provided to the Portfolio.

Based upon these considerations and other factors, the Trustees concluded that they were satisfied with the nature, extent and quality of the investment advisory services provided to the Portfolio by the Adviser.

Costs of Services Provided and Profitability to the Adviser and its Affiliates

The Trustees received and considered information regarding the profitability to the Adviser and its affiliates in providing services to the Portfolio. The Trustees reviewed and discussed this information. The Trustees recognized that this information is not audited and represents the Adviser's determination of its and its affiliates' revenues from the contractual services provided to the Portfolio, less expenses of providing such services. Expenses include direct and indirect costs and are calculated using an allocation methodology developed by the Adviser. The Trustees also recognized that it is difficult to make comparisons of profitability from fund investment advisory contracts because comparative information is not generally publicly available and is affected by numerous factors, including the structure of the particular adviser, the types of funds it manages, its business mix, numerous assumptions regarding allocations and the fact that publicly-traded fund managers' operating profits and net income are net of distribution and marketing expenses. Based upon their review, the Trustees concluded that the profitability to the Adviser under the Advisory Agreement was not unreasonable in light of the services and benefits provided to the Portfolio.

The Trustees also considered that the Adviser earns fees from the Portfolio for providing administrative services. These fees were shown separately in the profitability analysis presented to the Trustees. The Trustees also considered the payments of Rule 12b-1 fees to JPMDS, an affiliate of the Adviser, which also acts as the Portfolio's distributor and that these fees are in turn generally paid to financial intermediaries that sell the Portfolio, including financial intermediaries that are affiliates of the Adviser. The Trustees also considered the fees paid to JPMorgan Chase Bank, N.A. ("JPMCB") for custody and fund accounting and other related services.

Fall-Out Benefits

The Trustees reviewed information regarding potential "fall-out" or ancillary benefits received by the Adviser and its affiliates as a result of their relationship with the Portfolio. The Trustees also reviewed the Adviser's allocation of fund brokerage for the J.P. Morgan Funds complex, including allocations to brokers who provide research to the Adviser.

Economies of Scale

The Trustees considered the extent to which the Portfolio may benefit from economies of scale. The Trustees considered that there may not be a direct relationship between economies of scale realized by the Portfolio and those realized by the Adviser as assets increase. The Trustees considered the extent to which the Portfolio was priced to scale and whether it would be appropriate to add advisory fee breakpoints, but noted that the Portfolio has implemented fee waivers and contractual expense limitations ("Fee Caps") which allow the Portfolio's share-

holders to share potential economies of scale from the Portfolio's inception and that the fees remain competitive with peer funds. The Trustees also considered that the Adviser has added or enhanced services to the Portfolio over time, noting the Adviser's substantial investments in its business in support of the Portfolio, including investments in trading systems and technology (including cybersecurity improvements), attraction and retention of key talent, additions to analyst and portfolio management teams, and regulatory support enhancements. The Trustees concluded that the current fee structure was reasonable in light of the Fee Caps that the Adviser has in place that serve to limit the overall net expense ratios of the Portfolio at competitive levels. The Trustees concluded that the Portfolio's shareholders received the benefits of potential economies of scale through the Fee Caps and the Adviser's reinvestment in its operations to serve the Portfolio and its shareholders.

Independent Written Evaluation of the Portfolio's Chief Compliance Officer

The Trustees noted that, upon their direction, the Chief Compliance Officer for the Portfolio had prepared an independent written evaluation in order to assist the Trustees in determining the reasonableness of the proposed management fees. The Trustees considered the written evaluation in determining whether to continue the Advisory Agreement.

Fees Relative to Adviser's Other Clients

The Trustees received and considered information about the nature and extent of investment advisory services and fee rates offered to other clients of the Adviser, including institutional separate accounts and/or funds sub-advised by the Adviser, for investment management styles substantially similar to that of the Portfolio. The Trustees considered the complexity of investment management for registered mutual funds relative to the Adviser's other clients and noted differences in the regulatory, legal and other risks and responsibilities of providing services to the different clients. The Trustees considered that serving as an adviser to a registered mutual fund involves greater responsibilities and risks than acting as a sub-adviser and observed that sub-advisory fees may be lower than those charged by the Adviser to the Portfolio. The Trustees also noted that the adviser, not the mutual fund, pays the sub-advisory fee and that many responsibilities related to the advisory function are retained by the primary adviser. The Trustees concluded that the fee rates charged to the Portfolio in comparison to those charged to the Adviser's other clients were reasonable.

Investment Performance

The Trustees received and considered absolute and/or relative performance information for the Portfolio in a report prepared by Broadridge/Lipper. The Trustees considered the total return performance information, which included the ranking of the Portfolio within a performance universe made up of funds with

BOARD APPROVAL OF INVESTMENT ADVISORY AGREEMENT

(Unaudited) (continued)

the same Broadridge/Lipper investment classification and objective (the “Universe”), as well as a subset of funds in the Universe (the “Peer Group”), by total return for applicable one-, three- and five-year periods. The Trustees reviewed a description of Broadridge/Lipper’s methodology for selecting mutual funds in the Portfolio’s Peer Group and Universe. The Broadridge/Lipper materials provided to the Trustees highlighted information with respect to a representative class to assist the Trustees in their review. As part of this review, the Trustees also reviewed the Portfolio’s performance against its benchmark and considered the performance information provided for the Portfolio at regular Board meetings by the Adviser. The Trustees also engaged with the Adviser to consider what steps might be taken to improve performance, as applicable. The Broadridge/Lipper performance data noted by the Trustees as part of their review and the determinations made by the Trustees with respect to the Portfolio’s performance are summarized below:

The Trustees noted that the Portfolio’s performance for Class 1 shares was in the second, third and first quintiles based upon the Peer Group, and in the first, third and first quintiles based upon the Universe, for the one-, three-, and five-year periods ended December 31, 2017, respectively. The Trustees discussed the performance and investment strategy of the Portfolio with the Adviser and based upon this discussion and various other factors, concluded that the Portfolio’s performance was satisfactory.

Advisory Fees and Expense Ratios

The Trustees considered the contractual advisory fee rate and administration fee rate paid by the Portfolio to the Adviser and compared the combined rate to the information prepared by Broadridge/Lipper concerning management fee rates paid by other funds in the same Broadridge/Lipper category as the Portfolio. The Trustees recognized that Broadridge/Lipper reported the Portfolio’s management fee rate as the combined contractual advisory fee and administration fee rates. The Trustees also reviewed information about other expenses and the expense ratios for the Portfolio. The Trustees considered the Fee Caps currently in place for the Portfolio, the net advisory fee rate after taking into account any waivers and/or reimbursements, and where deemed appropriate by the Trustees, additional waivers and/or reimbursements. The Trustees recognized that it is difficult to make comparisons of advisory fees because there are variations in the services that are included in the fees paid by other funds. The Trustees’ determinations as a result of the review of the Portfolio’s advisory fees and expense ratios are summarized below:

The Trustees noted that the Portfolio’s net advisory fee for Class 1 shares was in the second quintile based upon both the Peer Group and Universe, and that the actual total expenses for Class 1 shares were in the second and third quintiles based upon the Peer Group and Universe, respectively. After considering the factors identified above, in light of this information, the Trustees concluded that the advisory fee was satisfactory in light of the services provided to the Portfolio.

TAX LETTER

(Unaudited)

Dividends Received Deduction (DRD)

The Portfolio had 38.95%, or maximum allowable percentage, of ordinary income distributions eligible for the dividends received deduction for corporate rate shareholders for the fiscal year ended December 31, 2018.

Long Term Capital Gain

The Portfolio distributed \$8,624,705, or maximum allowable amount, of long-term capital gain dividends for the fiscal year ended December 31, 2018.
