

Neuberger Berman Advisers Management Trust Short Duration Bond Portfolio

I Class Shares

Annual Report

December 31, 2018

Short Duration Bond Portfolio Commentary (Unaudited)

The Neuberger Berman Advisers Management Trust Short Duration Bond Portfolio Class I posted a 1.02% total return for the 12 months ended December 31, 2018, underperforming its benchmark, the Bloomberg Barclays 1-3 Year U.S. Government/Credit Bond Index (the Index), which returned 1.60% for the same time period.

The U.S. Treasury yield curve flattened during the reporting period, as short-term interest rates moved higher than their longer-term counterparts. Short-term rates rose as the U.S. Federal Reserve Board (Fed) raised interest rates four times in 2018. The Fed currently anticipates two additional rate hikes in 2019, although this will likely be data dependent. For the 12 months ended December 31, 2018, the yield on the two-year U.S. Treasury moved 59 basis points (bps) higher, whereas the 10-year U.S. Treasury yield rose 29 bps. The spread sectors (non-U.S. Treasury fixed income securities) generated mixed results during the reporting period.

The primary detractors from the Fund's performance during the reporting period were its out-of-benchmark allocation to agency mortgage-backed securities and an overweight to investment grade credit compared to the Index. These positions were headwinds for results. On the upside, the Fund's duration positioning modestly contributed to returns. During the first three quarters of the year, we had a defensive duration posture relative to the Index, with an underweight to the two-to-three year area of the yield curve. As short-term yields moved higher, we took the opportunity to move to a more neutral duration position late in the third quarter of the year. Our allocation to asset-backed securities (ABS) was also a small contributor to results, as was an underweight to agency debt. Elsewhere, the Fund's allocation to the investment-grade corporate bond sector did not meaningfully impact performance during the year.

The Fund's use of Treasury futures contributed positively to performance.

The Fund maintained an overweight to the spread sectors and an underweight to Treasuries and agency debt during the reporting period relative to the Index. However, several adjustments were made to the Fund, including increasing its overweights to investment grade corporate bonds and AAA rated credit card and auto ABS. In both cases we found what we believe to be attractive investment opportunities. We also increased the Fund's exposure to corporate floating rate notes. These securities have limited interest rate sensitivity and allowed us to capture higher coupons. These changes were funded by reducing the Fund's allocation to Treasuries securities.

Since the financial crisis of 2008, the global economy has seen plenty of "mini-booms" and "mini-busts," typically driven by some shift in monetary policy or evolving fiscal circumstance. In just about all of these instances, the correct strategy would have been to disregard the excessive optimism or excessive pessimism dominating market sentiment and prepare for the global economy's return to low, but positive, levels of growth. While economic trends across 2018 have raised concerns that the long-lived economic cycle may be screeching to a halt, we believe it's appropriate—once again—to tune out the noise. Overall, we anticipate a soft landing—economic growth slows without triggering a recession—but with slightly different impacts for fixed income markets than in past years. We look ahead to moderate U.S. growth—around the 2% level in 2019—as a potentially nascent slowdown in economically sensitive sectors like automobiles and housing, coupled with a lack of acceleration in capital spending, will likely, in our opinion, be tempered by stable consumer spending and a cautious Fed.

Sincerely,

THOMAS SONTAG, MICHAEL FOSTER AND MATTHEW MCGINNIS
PORTFOLIO MANAGERS

Information about principal risks of investing in the Fund is set forth in the prospectus and statement of additional information.

The portfolio composition, industries and holdings of the Fund are subject to change without notice.

The opinions expressed are those of the Fund's portfolio managers. The opinions are as of the date of this report and are subject to change without notice.

PERFORMANCE HIGHLIGHTS

	Inception Date	Average Annual Total Return Ended 12/31/2018			
		1 Year	5 Years	10 Years	Life of Fund
Class I	09/10/1984	1.02%	0.78%	2.73%	4.66%
Bloomberg Barclays 1-3 Year U.S. Government/Credit Bond Index ^{1,2}		1.60%	1.03%	1.52%	5.24%

The performance data quoted represent past performance and do not indicate future results. Current performance may be lower or higher than the performance data quoted. For performance data current to the most recent month-end, please visit <http://www.nb.com/amtportfolios/performance>.

The results shown in the table reflect the reinvestment of income dividends and other distributions, if any. The results do not reflect the effect of taxes a shareholder would pay on Fund distributions or on the redemption of Fund shares. The results do not reflect fees and expenses of the variable annuity and variable life insurance policies or the qualified pension and retirement plans whose proceeds are invested in the Fund.

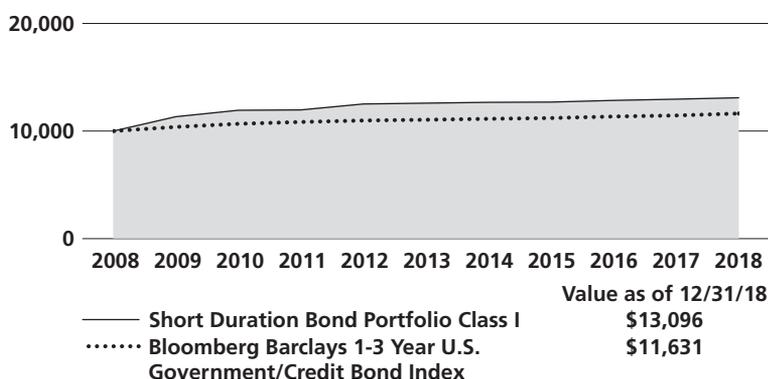

The investment return and principal value of an investment will fluctuate and shares, when redeemed, may be worth more or less than their original cost.

Returns would have been lower if Neuberger Berman Investment Advisers LLC ("Management") had not reimbursed certain expenses and/or waived a portion of the investment management fees during certain of the periods shown. Repayment by a class (of expenses previously reimbursed and/or fees previously waived by Management) will decrease the class's returns. Please see Note B in the Notes to Financial Statements for specific information regarding expense reimbursement and/or fee waiver arrangements.

For the period ended December 31, 2018, the 30-day SEC yield was 1.99% for Class I shares.

As stated in the Fund's most recent prospectus, the total annual operating expense ratio for fiscal year 2017 was 0.86% for Class I shares (before expense reimbursements and/or fee waivers, if any). The expense ratios for the annual period ended December 31, 2018 can be found in the Financial Highlights section of this report.

COMPARISON OF A \$10,000 INVESTMENT

This graph shows the change in value of a hypothetical \$10,000 investment in the Fund over the past 10 fiscal years, or since the Fund's inception, if it has not operated for 10 years. The result is compared with benchmarks, which include a broad-based market index and may include a more narrowly based index. Market indices have not been reduced to reflect any of the fees and costs of investing. The results shown in the graph reflect the reinvestment of income dividends and other distributions, if any. The results do not reflect the effect of taxes a shareholder would pay on Fund distributions or on the redemption of Fund shares. The results do not reflect fees and expenses of the variable annuity and variable life insurance policies or the qualified pension and retirement plans whose proceeds are invested in the Fund. Results represent past performance and do not indicate future results.

Please see Endnotes for additional information.

Endnotes

- 1 The date used to calculate Life of Fund performance for the index is September 10, 1984, the Fund's commencement of operations.
- 2 The Bloomberg Barclays 1-3 Year U.S. Government/Credit Bond Index is the 1-3 year component of the Barclays U.S. Government/Credit Index. The Bloomberg Barclays U.S. Government/Credit Index is the non-securitized component of the Bloomberg Barclays U.S. Aggregate Bond Index and includes Treasuries and government-related (agency, sovereign, supranational, and local authority debt) and corporate securities. Please note that the indices described in this report do not take into account any fees, expenses or tax consequences of investing in the individual securities that they track, and that individuals cannot invest directly in any index. Data about the performance of an index are prepared or obtained by Neuberger Berman Investment Advisers LLC ("Management") and reflect the reinvestment of income dividends and other distributions, if any. The Fund may invest in securities not included in a described index and generally does not invest in all securities included in a described index.

The investments for the Fund are managed by the same portfolio manager(s) who manage(s) one or more other registered funds that have names, investment objectives and investment styles that are similar to those of the Fund. You should be aware that the Fund is likely to differ from those other mutual fund(s) in size, cash flow pattern and tax matters. Accordingly, the holdings and performance of the Fund can be expected to vary from those of the other mutual fund(s).

Shares of the separate Neuberger Berman Advisers Management Trust Portfolios, including the Fund, are not available to the general public. Shares of the Fund may be purchased only by life insurance companies to be held in their separate accounts, which fund variable annuity and variable life insurance policies, and by qualified pension and retirement plans.

Statistics and projections in this report are derived from sources deemed to be reliable but cannot be regarded as a representation of future results of the Fund. This report is prepared for the general information of shareholders and is not an offer of shares of the Fund. Shares are sold only through the currently effective prospectus, which must precede or accompany this report.

The "Neuberger Berman" name and logo and "Neuberger Berman Investment Advisers LLC" name are registered service marks of Neuberger Berman Group LLC. The individual Fund name in this piece is either a service mark or registered service mark of Neuberger Berman Investment Advisers LLC, an affiliate of Neuberger Berman BD LLC, distributor, member FINRA.

Information About Your Fund’s Expenses (Unaudited)

As a Fund shareholder, you incur two types of costs: (1) transaction costs such as fees and expenses that are, or may be, imposed under your variable contract or qualified pension plan; and (2) ongoing costs, including management fees, distribution and/or service (12b-1) fees (if applicable), and other Fund expenses. This example is intended to help you understand your ongoing costs (in U.S. dollars) of investing in the Fund and compare these costs with the ongoing costs of investing in other mutual funds.

This table is designed to provide information regarding costs related to your investments. The following examples are based on an investment of \$1,000 made at the beginning of the six month period ended December 31, 2018 and held for the entire period. The table illustrates the Fund’s costs in two ways:

Actual Expenses and Performance: The first section of the table provides information about actual account values and actual expenses in dollars, based on the Fund’s actual performance during the period indicated. You may use the information in this line, together with the amount you invested, to estimate the expenses you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first section of the table under the heading entitled “Expenses Paid During the Period” to estimate the expenses you paid over the period.

Hypothetical Example for Comparison Purposes: The second section of the table provides information about hypothetical account values and hypothetical expenses based on the Fund’s actual expense ratio and an assumed rate of return at 5% per year before expenses. This return is not the Fund’s actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in this Fund versus other funds. To do so, compare the expenses shown in this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses in the table are meant to highlight your ongoing costs only and do not include any transaction costs, such as fees and expenses that are, or may be imposed under your variable contract or qualified pension plan. Therefore, the information under the heading “Hypothetical (5% annual return before expenses)” is useful in comparing ongoing costs only, and will not help you determine the relative total costs of owning different funds. In addition, if these transaction costs were included, your costs would have been higher.

Expense Example (Unaudited)

NEUBERGER BERMAN ADVISERS MANAGEMENT TRUST SHORT DURATION BOND PORTFOLIO

	Beginning Account Value 7/1/18	Ending Account Value 12/31/18	Expenses Paid During the Period 7/1/18 – 12/31/18
Actual			
Class I	\$1,000.00	\$1,011.20	\$4.46 ^(a)
Hypothetical (5% annual return before expenses)			
Class I	\$1,000.00	\$1,020.77	\$4.48 ^(b)

(a) Expenses are equal to the annualized expense ratio of 0.88%, multiplied by the average account value over the period, multiplied by 184/365 (to reflect the one-half year period shown).

(b) Hypothetical expenses are equal to the annualized expense ratio of 0.88%, multiplied by the average account value over the period (assuming a 5% annual return), multiplied by 184/365 (to reflect the one-half year period shown).

- (a) Variable or floating rate security. The interest rate shown was the current rate as of December 31, 2018 and changes periodically.

Benchmarks for Variable/Floating Rates:

LIBOR = London Interbank Offered Rate

- (b) Securities were purchased under Rule 144A of the 1933 Act, as amended, or are otherwise restricted and, unless registered under the Securities Act of 1933 or exempted from registration, may only be sold to qualified institutional investors or may have other restrictions on resale. At December 31, 2018, these securities amounted to \$12,531,207, which represents 10.7% of net assets of the Fund. These securities have been deemed by the investment manager to be liquid.
- (c) All or a portion of this security is segregated in connection with obligations for futures contracts with a total value of \$4,030,066.
- (d) Represents 7-day effective yield as of December 31, 2018.
- (e) Includes the impact of the Fund's open positions in derivatives at December 31, 2018.

Schedule of Investments Short Duration Bond Portfolio (cont'd)

Derivative Instruments

Futures contracts ("futures")

At December 31, 2018, open positions in futures for the Fund were as follows:

Long Futures:

Expiration Date	Number of Contracts	Open Contracts	Notional Amount	Value and Unrealized Appreciation/ (Depreciation)
3/2019	153	U.S. Treasury Note, 2 Year	\$32,483,813	\$177,063
Total Futures			\$32,483,813	\$177,063

For the year ended December 31, 2018, the average notional value of futures for the Fund was \$15,596,922 for long positions.

The following is a summary, categorized by Level (see Note A of Notes to Financial Statements), of inputs used to value the Fund's investments as of December 31, 2018:

Asset Valuation Inputs	Level 1	Level 2	Level 3	Total
Investments:

Notes to Financial Statements Short Duration Bond Portfolio

Note A—Summary of Significant Accounting Policies:

- 1 **General:** Neuberger Berman Advisers Management Trust (the “Trust”) is a Delaware statutory trust organized pursuant to an Amended and Restated Trust Instrument dated March 27, 2014. The Trust is currently comprised of eight separate operating series (each individually a “Fund,” and collectively the “Funds”) each of which is diversified. The Trust is registered as an open-end management investment company under the Investment Company Act of 1940, as amended (the “1940 Act”), and its shares are registered under the Securities Act of 1933, as amended. Neuberger Berman Advisers Management Trust Short Duration Bond Portfolio (the “Fund”) currently offers only Class I shares. The Trust’s Board of Trustees (the “Board”) may establish additional series or classes of shares without the approval of shareholders.

The assets of each Fund belong only to that Fund, and the liabilities of each Fund are borne solely by that Fund and no other.

The Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946 “Financial Services—Investment Companies.”

The preparation of financial statements in accordance with U.S. generally accepted accounting principles (“GAAP”) requires Neuberger Berman Investment Advisers LLC (“Management”) to make estimates and assumptions at the date of the financial statements. Actual results could differ from those estimates.

Shares of the Fund are not available to the general public and may be purchased only by life insurance companies to serve as an investment vehicle for premiums paid under their variable annuity and variable life insurance contracts and to certain qualified pension and other retirement plans.

- 2 **Portfolio valuation:** In accordance with ASC 820 “Fair Value Measurement” (“ASC 820”), all investments held by the Fund are carried at the value that Management believes the Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market for the investment under current market conditions. Various inputs, including the volume and level of activity for the asset or liability in the market, are considered in valuing the Fund’s investments, some of which are discussed below. Significant Management judgment may be necessary to value investments in accordance with ASC 820.

ASC 820 established a three-tier hierarchy of inputs to create a classification of value measurements for disclosure purposes. The three-tier hierarchy of inputs is summarized in the three broad Levels listed below.

- Level 1—quoted prices in active markets for identical investments
- Level 2—other observable inputs (including quoted prices for similar investments, interest rates, prepayment speeds, credit risk, amortized cost, etc.)
- Level 3—unobservable inputs (including the Fund’s own assumptions in determining the fair value of investments)

The inputs or methodology used for valuing an investment are not necessarily an indication of the risk associated with investing in those securities.

The value of the Fund’s investments in debt securities is determined by Management primarily by obtaining valuations from independent pricing services based on readily available bid quotations, or if quotations are not available, by methods which include various considerations based on security type (generally Level 2 inputs). In addition to the consideration of yields or prices of securities of comparable quality, coupon, maturity and type, indications as to values from dealers, and general market conditions, the following is a description of other Level 2

inputs and related valuation techniques used by independent pricing services to value certain types of debt securities held by the Fund:

Corporate Bonds. Inputs used to value corporate debt securities generally include relative credit information, observed market movements, sector news, U.S. Treasury yield curve or relevant benchmark curve, and other market information, which may include benchmark yields, reported trades, broker-dealer quotes, issuer spreads, benchmark securities, bids, offers, and reference data, such as market research publications, when available (“Other Market Information”).

Asset-Backed Securities and Mortgage-Backed Securities. Inputs used to value asset-backed securities and mortgage-backed securities generally include models that consider a number of factors, which may include the following: prepayment speeds, cash flows, spread adjustments and Other Market Information.

The value of futures is determined by Management by obtaining valuations from independent pricing services at the settlement price at the market close (Level 1 inputs).

Management has developed a process to periodically review information provided by independent pricing services for all types of securities.

Investments in non-exchange traded investment companies are valued using the respective fund’s daily calculated net asset value (“NAV”) per share (Level 2 inputs).

If a valuation is not available from an independent pricing service, or if Management has reason to believe that the valuation received does not represent the amount the Fund might reasonably expect to receive on a current sale in an orderly transaction, Management seeks to obtain quotations from brokers or dealers (generally considered Level 2 or Level 3 inputs depending on the number of quotes available). If such quotations are not readily available, the security is valued using methods the Board has approved in the good-faith belief that the resulting valuation will reflect the fair value of the security. Numerous factors may be considered when determining the fair value of a security based on Level 2 or Level 3 inputs, including available analyst, media or other reports, securities within the same industry with recent highly correlated performance, trading in futures or American Depositary Receipts and whether the issuer of the security being fair valued has other securities outstanding.

Fair value prices are necessarily estimates, and there is no assurance that such a price will be at or close to the price at which the security is next quoted or next trades.

- 3 Foreign currency translations:** The accounting records of the Fund are maintained in U.S. dollars. Foreign currency amounts are normally translated into U.S. dollars using the exchange rate as of 4:00 p.m. Eastern Time, on days the NYSE is open for business, to determine the value of investments, other assets and liabilities. Purchase and sale prices of securities, and income and expenses, are translated into U.S. dollars at the prevailing rate of exchange on the respective dates of such transactions. Net unrealized foreign currency gain/(loss), if any, arises from changes in the value of assets and liabilities, other than investments in securities, as a result of changes in exchange rates and is stated separately in the Statement of Operations.
- 4 Securities transactions and investment income:** Securities transactions are recorded on trade date for financial reporting purposes. Interest income, including accretion of discount (adjusted for original issue discount, where applicable) is recorded on the accrual basis. Realized gains and losses from securities transactions and foreign currency transactions, if any, are recorded on the basis of identified cost and stated separately in the Statement of Operations. Included in net realized gain/(loss) on investments are proceeds from the settlements of class action litigation in which the Fund participated as a class member. The amount of such proceeds for the year ended December 31, 2018 was \$125,982.
- 5 Income tax information:** The Fund is treated as a separate entity for U.S. federal income tax purposes. It is the policy of the Fund to continue to qualify for treatment as a regulated investment company (“RIC”) by complying with the requirements of the U.S. Internal Revenue Code applicable to RICs and to distribute substantially all of its net investment income and net realized capital gains to its shareholders. To the extent the Fund distributes

substantially all of its net investment income and net realized capital gains to shareholders, no federal income or excise tax provision is required.

The Fund has adopted the provisions of ASC 740 “Income Taxes” (“ASC 740”). ASC 740 sets forth a minimum threshold for financial statement recognition of a tax position taken, or expected to be taken, in a tax return. The Fund recognizes interest and penalties, if any, related to unrecognized tax positions as an income tax expense in the Statement of Operations. The Fund is subject to examination by U.S. federal and state tax authorities for returns filed for the tax years for which the applicable statutes of limitations have not yet expired. As of December 31, 2018, the Fund did not have any unrecognized tax positions.

At December 31, 2018, the cost for all long security positions and derivative instruments (if any) for U.S. federal income tax purposes was \$118,595,134. Gross unrealized appreciation of long security positions was \$124,055 and gross unrealized depreciation of long security positions was \$1,796,523 resulting in net unrealized depreciation of \$1,672,468 based on cost for U.S. federal income tax purposes.

Income distributions and capital gain distributions are determined in accordance with income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments of income and gains on various investment securities held by the Fund, timing differences and differing characterization of distributions made by the Fund. The Fund may also utilize earnings and profits distributed to shareholders on redemption of their shares as a part of the dividends-paid deduction for income tax purposes.

Any permanent differences resulting from different book and tax treatment are reclassified at year-end and have no impact on net income, NAV or NAV per share of the Fund. For the year ended December 31, 2018, the Fund recorded the following permanent reclassifications primarily related to the expiration of capital loss carry-forwards:

Paid-in Capital	Total Distributable Earnings/(Losses)
\$ (7,896,656)	\$ 7,896,656

The tax character of distributions paid during the years ended December 31, 2018 and December 31, 2017 was as follows:

Distributions Paid From:			
Ordinary Income		Total	
2018	2017	2018	2017
\$1,914,454	\$1,965,876	\$1,914,454	\$1,965,876

As of December 31, 2018, the components of distributable earnings (accumulated losses) on a U.S. federal income tax basis were as follows:

Undistributed Ordinary Income	Undistributed Long-Term Capital Gain	Unrealized Appreciation/ (Depreciation)	Loss Carryforwards and Deferrals	Other Temporary Differences	Total
\$2,168,153	\$—	\$ (1,672,468)	\$ (25,728,730)	\$—	\$ (25,233,045)

The temporary differences between book basis and tax basis distributable earnings are primarily due to: amortization of bond premium and mark-to-market adjustments on futures.

To the extent the Fund’s net realized capital gains, if any, can be offset by capital loss carryforwards, it is the policy of the Fund not to distribute such gains. Capital loss carryforward rules allow for RICs to carry forward capital losses indefinitely and to retain the character of capital loss carryforwards as short-term or long-term. As

determined at December 31, 2018, the Fund had unused capital loss carryforwards available for federal income tax purposes to offset net realized capital gains, if any, as follows:

Long-Term	Short-Term
\$23,413,290	\$2,315,440

During the year ended December 31, 2018, the Fund had capital loss carryforwards expire of \$7,896,656.

- 6 Distributions to shareholders:** The Fund may earn income, net of expenses, daily on its investments. Distributions from net investment income and net realized capital gains, if any, are generally distributed once a year (usually in October). Income distributions and capital gain distributions to shareholders are recorded on the ex-date.
- 7 Foreign taxes:** Foreign taxes withheld, if any, represent amounts withheld by foreign tax authorities, net of refunds recoverable.
- 8 Expense allocation:** Certain expenses are applicable to multiple funds within the complex of related investment companies. Expenses directly attributable to a fund are charged to that fund. Expenses of the Trust that are not directly attributable to a particular series of the Trust (e.g., the Fund) are allocated among the series of the Trust, on the basis of relative net assets, except where a more appropriate allocation of expenses to each of the series can otherwise be made fairly. Expenses borne by the complex of related investment companies, which includes open-end and closed-end investment companies for which Management serves as investment manager, that are not directly attributable to a particular investment company in the complex (e.g., the Trust) or series thereof are allocated among the investment companies in the complex or series thereof on the basis of relative net assets, except where a more appropriate allocation of expenses to each of the investment companies in the complex or series thereof can otherwise be made fairly.
- 9 Dollar rolls:** The Fund may enter into dollar roll transactions with respect to mortgage-backed securities. In a dollar roll transaction, the Fund sells securities for delivery in the current month and simultaneously agrees to repurchase substantially similar (i.e., same type and coupon) securities on a specified future date from the same party. During the period before this repurchase, the Fund forgoes principal and interest payments on the securities. The Fund is compensated by the difference between the current sales price and the forward price for the future purchase (often referred to as the “drop”), as well as by the interest earned on the cash proceeds of the initial sale. Dollar rolls may increase fluctuations in the Fund’s NAV and may be viewed as a form of leverage. There is a risk that the counterparty will be unable or unwilling to complete the transaction as scheduled, which may result in losses to the Fund.
- 10 Investments in foreign securities:** Investing in foreign securities may involve sovereign and other risks, in addition to the credit and market risks normally associated with domestic securities. These additional risks include the possibility of adverse political and economic developments (including political instability, nationalization, expropriation, or confiscatory taxation) and the potentially adverse effects of unavailability of public information regarding issuers, less governmental supervision and regulation of financial markets, reduced liquidity of certain financial markets, and the lack of uniform accounting, auditing, and financial reporting standards or the application of standards that are different or less stringent than those applied in the United States. Foreign securities also may experience greater price volatility, higher rates of inflation, and delays in settlement.
- 11 Investment company securities and exchange-traded funds:** The Fund may invest in shares of other registered investment companies, including exchange-traded funds (“ETFs”), within the limitations prescribed by the 1940 Act or pursuant to an exemptive order from the Securities and Exchange Commission (“SEC”) that permits the Fund to invest in both affiliated and unaffiliated investment companies, including ETFs, in excess of the limits in Section 12(d)(1)(A) of the 1940 Act, as amended, subject to the terms and conditions of such order. Some ETFs seek to track the performance of a particular market index. These indices include both broad-based market indices and more narrowly-based indices, including those relating to particular sectors, markets, regions or industries. However, some ETFs have an actively-managed investment objective. ETF shares are traded like traditional equity

securities on a national securities exchange or NASDAQ. The Fund will indirectly bear its proportionate share of any management fees and other expenses paid by such other investment companies, which will increase expenses and decrease returns.

- 12 Derivative instruments:** The Fund’s use of derivatives during the year ended December 31, 2018, is described below. Please see the Schedule of Investments for the Fund’s open positions in derivatives, if any, at December 31, 2018. The Fund has adopted the provisions of ASC 815 “Derivatives and Hedging” (“ASC 815”). The disclosure requirements of ASC 815 distinguish between derivatives that qualify for hedge accounting and those that do not. Because investment companies value their derivatives at fair value and recognize changes in fair value through the Statement of Operations, they do not qualify for hedge accounting. Accordingly, even though the Fund’s investments in derivatives may represent economic hedges, they are considered non-hedge transactions for purposes of this disclosure.

Futures contracts: During the year ended December 31, 2018, the Fund used U.S. Treasury futures to manage the duration of the Fund.

At the time the Fund enters into a futures contract, it is required to deposit with the futures commission merchant a specified amount of cash or liquid securities, known as “initial margin,” which is a percentage of the value of the futures contract being traded that is set by the exchange upon which the futures contract is traded. Each day, the futures contract is valued at the official settlement price of the board of trade or U.S. commodity exchange on which such futures contract is traded. Subsequent payments, known as “variation margin,” to and from the broker are made on a daily basis, or as needed, as the market price of the futures contract fluctuates. Daily variation margin adjustments, arising from this “mark to market,” are recorded by the Fund as unrealized gains or losses.

Although some futures by their terms call for actual delivery or acquisition of the underlying securities or currency, in most cases the contracts are closed out prior to delivery by offsetting purchases or sales of matching futures. When the contracts are closed, the Fund recognizes a gain or loss. Risks of entering into futures contracts include the possibility there may be an illiquid market, possibly at a time of rapidly declining prices, and/or a change in the value of the contract may not correlate with changes in the value of the underlying securities. Futures executed on regulated futures exchanges have minimal counterparty risk to the Fund because the exchange’s clearinghouse assumes the position of the counterparty in each transaction. Thus, the Fund is exposed to risk only in connection with the clearinghouse and not in connection with the original counterparty to the transaction.

For U.S. federal income tax purposes, the futures transactions undertaken by the Fund may cause the Fund to recognize gains or losses from marking contracts to market even though its positions have not been sold or terminated, may affect the character of the gains or losses recognized as long-term or short-term, and may affect the timing of some capital gains and losses realized by the Fund. Also, the Fund’s losses on transactions involving futures contracts may be deferred rather than being taken into account currently in calculating the Fund’s taxable income.

At December 31, 2018, the Fund had the following derivatives (which did not qualify as hedging instruments under ASC 815), grouped by primary risk exposure:

Asset Derivatives

Derivative Type	Statement of Assets and Liabilities Location	Interest Rate Risk	Total
Futures	Receivable/Payable for accumulated variation margin on futures contracts	\$177,063	\$177,063
Total Value—Assets		\$177,063	\$177,063

The impact of the use of these derivative instruments on the Statement of Operations during the year ended December 31, 2018, was as follows:

Realized Gain/(Loss)

Derivative Type	Statement of Operations Location	Interest Rate Risk	Total
Futures	Net realized gain/(loss) on: expiration or closing of futures contracts	\$(76,309)	\$(76,309)
Total Realized Gain/(Loss)		\$(76,309)	\$(76,309)

Change in Appreciation/(Depreciation)

Derivative Type	Statement of Operations Location	Interest Rate Risk	Total
Futures	Change in net unrealized appreciation/(depreciation) in value of: futures contracts	\$193,469	\$193,469
Total Change in Appreciation/(Depreciation)		\$193,469	\$193,469

While the Fund may receive rights and warrants in connection with its investments in securities, these rights and warrants are not considered “derivative instruments” under ASC 815.

- 13 Securities lending:** The Fund, using State Street Bank and Trust Company (“State Street”) as its lending agent, may loan securities to qualified brokers and dealers in exchange for negotiated lender’s fees. These fees, if any, would be disclosed within the Statement of Operations under the caption “Income from securities loaned—net” and are net of expenses retained by State Street as compensation for its services as lending agent.

The initial cash collateral received by the Fund at the beginning of each transaction shall have a value equal to at least 102% of the prior day’s market value of the loaned securities (105% in the case of international securities). Thereafter, the value of the cash collateral is monitored on a daily basis, and cash collateral is moved daily between a counterparty and the Fund until the close of the transaction. The Fund may only receive collateral in the form of cash (U.S. dollars). Cash collateral is generally invested in a money market fund registered under the 1940 Act that is managed by an affiliate of State Street. The risks associated with lending portfolio securities include, but are not limited to, possible delays in receiving additional collateral or in the recovery of the loaned securities. Any increase or decrease in the fair value of the securities loaned and any interest earned or dividends paid or owed on those securities during the term of the loan would accrue to the Fund.

As of December 31, 2018, the Fund did not participate in securities lending.

- 14 Indemnifications:** Like many other companies, the Trust’s organizational documents provide that its officers (“Officers”) and trustees (“Trustees”) are indemnified against certain liabilities arising out of the performance of their duties to the Trust. In addition, both in some of its principal service contracts and in the normal course of its business, the Trust enters into contracts that provide indemnifications to other parties for certain types of losses or liabilities. The Trust’s maximum exposure under these arrangements is unknown as this could involve future claims against the Trust.

Note B—Investment Management Fees, Administration Fees, Distribution Arrangements, and Other Transactions With Affiliates:

The Fund retains Management as its investment manager under a Management Agreement. For such investment management services, the Fund pays Management a fee at the annual rate of 0.25% of the first \$500 million of the Fund’s average daily net assets, 0.225% of the next \$500 million, 0.20% of the next \$500 million, 0.175% of the next \$500 million, and 0.15% of average daily net assets in excess of \$2 billion. Accordingly, for the year ended

December 31, 2018, the investment management fee pursuant to the Management Agreement was equivalent to an annual effective rate of 0.25% of the Fund’s average daily net assets.

The Fund retains Management as its administrator under an Administration Agreement. The Fund pays Management an administration fee at the annual rate of 0.40% of its average daily net assets under this agreement. Additionally, Management retains State Street as its sub-administrator under a Sub-Administration Agreement. Management pays State Street a fee for all services received under the Sub-Administration Agreement.

Management has contractually agreed to waive fees and/or reimburse the Fund so that the total annual operating expenses do not exceed the expense limitation as detailed in the following table. This undertaking excludes fees payable to Management, interest, taxes, transaction costs, brokerage commissions, acquired fund fees and expenses, extraordinary expenses, and dividend and interest expenses relating to short sales, if any (commitment fees relating to borrowings are treated as interest for purposes of this exclusion) (“annual operating expenses”); consequently, net expenses may exceed the contractual expense limitation. The Fund has agreed that it will repay Management for fees and expenses waived or reimbursed provided that repayment does not cause the annual operating expenses to exceed its contractual expense limitation in place at the time the fees and expenses were waived or reimbursed, or the expense limitation in place at the time the Fund repays Management, whichever is lower. Any such repayment must be made within three years after the year in which Management incurred the expense.

During the year ended December 31, 2018, there was no repayment to Management under its contractual expense limitation.

At December 31, 2018, the Fund had no contingent liability to Management under its contractual expense limitation.

Class	Contractual Expense Limitation ^(a)	Expiration	Expenses Reimbursed in Year Ending December 31, Subject to Repayment Until December 31,		
			2016	2017	2018
Class I	1.00%	12/31/21	2019	2020	2021
			\$—	\$—	\$—

(a) Expense limitation per annum of the Fund’s average daily net assets.

Neuberger Berman BD LLC is the Fund’s “principal underwriter” within the meaning of the 1940 Act. It acts as agent in arranging for the sale of the Fund’s Class I shares without sales commission or other compensation and bears all advertising and promotion expenses incurred in the sale of those shares. The Board adopted a non-fee distribution plan for the Fund’s Class I shares.

Note C—Securities Transactions:

Cost of purchases and proceeds of sales and maturities of long-term securities (excluding futures) for the year ended December 31, 2018 were as follows:

Purchases of U.S. Government and Agency Obligations	Purchases excluding U.S. Government and Agency Obligations	Sales and Maturities of U.S. Government and Agency Obligations	Sales and Maturities excluding U.S. Government and Agency Obligations
\$11,226,801	\$59,453,726	\$20,147,714	\$60,332,995

Note D—Fund Share Transactions:

Share activity for the years ended December 31, 2018 and December 31, 2017 was as follows:

	For the Year Ended December 31,	
	2018	2017
Shares Sold	997,021	1,080,443
Shares Issued on Reinvestment of Dividends and Distributions	185,509	187,405
Shares Redeemed	(2,458,654)	(2,281,644)
Total	(1,276,124)	(1,013,796)

Note E—Line of Credit:

At December 31, 2018, the Fund was a participant in a syndicated committed, unsecured \$700,000,000 line of credit (the "Credit Facility"), to be used only for temporary or emergency purposes. Series of other investment companies managed by Management also participate in this line of credit on substantially the same terms. Interest is charged on borrowings under this Credit Facility at the highest of (a) a federal funds effective rate plus 1.00% per annum, (b) a Eurodollar rate for a one-month period plus 1.00% per annum, and (c) an overnight bank funding rate plus 1.00% per annum. The Credit Facility has an annual commitment fee of 0.15% per annum of the available line of credit, which is paid quarterly. The Fund has agreed to pay its pro rata share of the annual commitment fee, based on the ratio of its individual net assets to the net assets of all participants at the time the fee is due and payable, and interest charged on any borrowing made by the Fund and other costs incurred by the Fund. Because several mutual funds participate in the Credit Facility, there is no assurance that the Fund will have access to all or any part of the \$700,000,000 at any particular time. There were no loans outstanding under the Credit Facility at December 31, 2018. During the period ended December 31, 2018, the Fund did not utilize the Credit Facility.

Note F—Custodian Out-of-Pocket Expenses Refunded:

In May 2016, the Fund's custodian, State Street, announced that it had identified inconsistencies in the way in which the Fund was invoiced for categories of expenses, particularly those deemed "out-of-pocket" costs, from 1998 through November 2015. The amounts in the table below represent the refunded expenses and interest determined to be payable to the Fund for the period in question. These amounts were refunded to the Fund by State Street during the year ended December 31, 2017.

Expenses Refunded	Interest Paid to the Fund
\$143,479	\$15,861

Note G—Recent Accounting Pronouncements:

As of November 5, 2018, pursuant to the SEC Release #33-10532 “Disclosure Update and Simplification”, the Fund is no longer required to disclose whether the distributions from earnings are either from net investment income or net realized capital gains. The presentation for the year ended December 31, 2017 has been adjusted for this change in the Statements of Changes in Net Assets. At December 31, 2017, the distributions from net investment income and undistributed net investment income/(loss) were as follows:

Net Investment Income	Undistributed Net Investment Income at 12/31/17
\$(1,965,876)	\$1,913,864

In March 2017, FASB issued Accounting Standards Update No. 2017-08, “Receivables—Nonrefundable Fees and Other Costs (Subtopic 310-20), Premium Amortization on Purchased Callable Debt Securities” (“ASU 2017-08”). ASU 2017-08 shortens the amortization period to the earliest call date for certain purchased callable debt securities held at a premium. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Management is currently evaluating the impact of applying this guidance.

In August 2018, FASB issued Accounting Standards Update No. 2018-13, “Fair Value Measurement (Topic 820: Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement)” (“ASU 2018-13”). ASU 2018-13 eliminates the requirement to disclose the amount of and reasons for transfers between Level 1 and Level 2 of the fair value hierarchy, the timing of transfers between levels of the fair value hierarchy and the valuation processes for Level 3 fair value measurements. ASU 2018-13 will require the need to disclose the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements, and the changes in unrealized gains and losses for recurring Level 3 fair value measurements. ASU 2018-13 will also require that information is provided about the measurement uncertainty of Level 3 fair value measurements as of the reporting date. The guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019 and allows for early adoption of either the entire standard or only the provisions that eliminate or modify the requirements. Management has elected to adopt early the provisions that eliminate disclosure requirements. Management is still currently evaluating the impact of applying the rest of the guidance.

Financial Highlights

Short Duration Bond Portfolio

The following table includes selected data for a share outstanding throughout each year and other performance information derived from the Financial Statements. Amounts that do not round to \$0.01 or \$(0.01) per share are presented as \$0.00 or \$(0.00), respectively. Ratios that do not round to 0.01% or (0.01)% are presented as 0.00% or (0.00)%, respectively. A “—” indicates that the line item was not applicable in the corresponding period.

Class I

	Year Ended December 31,				
	2018	2017	2016	2015	2014
Net Asset Value, Beginning of Year	\$10.46	\$10.52	\$10.52	\$10.66	\$10.78
Income From Investment Operations:

Portfolio Turnover Rate	60%	87%	79%	65%	58%

Notes to Financial Highlights Short Duration Bond Portfolio

- @ Calculated based on the average number of shares outstanding during each fiscal period.
- † Total return based on per share NAV reflects the effects of changes in NAV on the performance of the Fund during each fiscal period. Returns assume income dividends and other distributions, if any, were reinvested. Results represent past performance and do not indicate future results. Current returns may be lower or higher than the performance data quoted. Investment returns and principal will fluctuate and shares, when redeemed, may be worth more or less than original cost. Total return would have been lower if Management had not reimbursed and/or waived certain expenses. The total return information shown does not reflect charges and other expenses that apply to the separate accounts or the related insurance policies or other qualified pension or retirement plans, and the inclusion of these charges and other expenses would reduce the total return for all fiscal periods shown.
- ^ Had the Fund not received the class action proceeds listed in Note A of the Notes to Financial Statements, total return based on per share NAV for the year ended December 31, 2018 would have been 0.92%. The class action proceeds received in 2017 had no impact on the Fund's total return for the year ended December 31, 2017. Had the Fund not received the class action proceeds in 2016, the total return based on per share NAV for the year ended December 31, 2016 would have been 0.64%. Had the Fund not received class action proceeds in 2015, total return based on per share NAV for the year ended December 31, 2015 would have been 0.09%.
- μ The voluntary contribution received in 2014 had no impact on the Fund's total return for the year ended December 31, 2014.
- ‡ Had the Fund not received the Custodian Out-of-Pocket Expenses Refunded listed in Note F of the Notes to Financial Statements, the total return based on per share NAV for the year ended December 31, 2017 would have been 0.79%.
- # Represents the annualized ratios of net expenses to average daily net assets if Management had not reimbursed certain expenses and/or waived a portion of the investment management fee. Management did not reimburse or waive fees during the fiscal periods shown.
- β Custodian Out-of-Pocket Expenses Refunded, as listed in Note F of the Notes to Financial Statements, is non-recurring, and is included in these ratios. Had the Fund not received the refund the annualized ratios of net expenses to average net assets and net investment income/(loss) to average net assets would have been:

Ratio of Net Expenses to Average Net Assets Year Ended December 31, 2017	Ratio of Net Investment Income/(Loss) to Average Net Assets Year Ended December 31, 2017
0.85%	0.92%

Report of Independent Registered Public Accounting Firm

To the Shareholders of the Short Duration Bond Portfolio and Board of Trustees of the Neuberger Berman Advisers Management Trust

Opinion on the Financial Statements

We have audited the accompanying statement of assets and liabilities of Short Duration Bond Portfolio (the “Portfolio”) (one of the portfolios constituting Neuberger Berman Advisers Management Trust (the “Trust”)), including the schedule of investments, as of December 31, 2018, and the related statement of operations for the year then ended, the statements of changes in net assets for each of the two years in the period then ended, the financial highlights for each of the five years in the period then ended and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Portfolio (one of the portfolios constituting Neuberger Berman Advisers Management) at December 31, 2018, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended and its financial highlights for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust’s management. Our responsibility is to express an opinion on the Portfolio’s financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (“PCAOB”) and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust’s internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2018, by correspondence with the custodian. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

The logo for Ernst & Young LLP, featuring the company name in a stylized, handwritten-style script.

We have served as the auditor of one or more Neuberger Berman investment companies since 1954.

Boston, Massachusetts

Brian Kerrane (1969)	Chief Operating Officer since 2015 and Vice President since 2008	Managing Director, Neuberger Berman, since 2013; Chief Operating Officer—Mutual Funds and Managing Director, NBIA, since 2015; formerly, Senior Vice President, Neuberger Berman, 2006 to 2014; Vice President, NBIA, 2008 to 2015 and Employee since 1991; Chief Operating Officer, ten registered investment companies for which NBIA acts as investment manager and/or administrator; Vice President, twenty-six registered investment companies for which NBIA acts as investment manager and/or administrator.
Anthony Maltese (1959)	Vice President since 2015	Senior Vice President, Neuberger Berman, since 2014 and Employee since 2000; Senior Vice President, NBIA, since 2014; Vice President, ten registered investment companies for which NBIA acts as investment manager and/or administrator.
Josephine Marone (1963)	Assistant Secretary since 2017	Senior Paralegal, Neuberger Berman, since 2007 and Employee since 2007; Assistant Secretary, twenty-six registered investment companies for which NBIA acts as investment manager and/or administrator.
Owen F. McEntee, Jr. (1961)	Vice President since 2008	Vice President, Neuberger Berman, since 2006; Vice President, NBIA, since 2006 and Employee since 1992; Vice President, ten registered investment companies for which NBIA acts as investment manager and/or administrator.
John M. McGovern (1970)	Treasurer and Principal Financial and Accounting Officer since 2005	Senior Vice President, Neuberger Berman, since 2007; Senior Vice President, NBIA, since 2007 and Employee since 1993; formerly, Vice President, Neuberger Berman, 2004 to 2006; formerly, Assistant Treasurer, 2002 to 2005; Treasurer and Principal Financial and Accounting Officer, twenty-six registered investment companies for which NBIA acts as investment manager and/or administrator.
Frank Rosato (1971)	Assistant Treasurer since 2005	Vice President, Neuberger Berman, since 2006; Vice President, NBIA, since 2006 and Employee since 1995; Assistant Treasurer, ten registered investment companies for which NBIA acts as investment manager and/or administrator.
Niketh Velamoor (1979)	Anti-Money Laundering Compliance Officer since 2018	Senior Vice President and Associate General Counsel, Neuberger Berman, since July 2018; Assistant United States Attorney, Southern District of New York, 2009 to 2018; Anti-Money Laundering Compliance Officer, four registered investment companies for which NBIA acts as investment manager and/or administrator.

- (1) The business address of each listed person is 1290 Avenue of the Americas, New York, NY 10104.
- (2) Pursuant to the By-Laws of the Trust, each officer elected by the Fund Trustees shall hold office until his or her successor shall have been elected and qualified or until his or her earlier death, inability to serve, or resignation. Officers serve at the pleasure of the Fund Trustees and may be removed at any time with or without cause.
- (3) Except as otherwise indicated, each individual has held the positions shown during at least the last five years.

Proxy Voting Policies and Procedures

A description of the policies and procedures that the Trust uses to determine how to vote proxies relating to portfolio securities is available, without charge, by calling 800-877-9700 (toll-free) and on the SEC's website, at www.sec.gov. Information regarding how the Trust voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is also available upon request, without charge, by calling 800-877-9700 (toll-free), on the SEC's website at www.sec.gov, and on Management's website at www.nb.com.

Quarterly Portfolio Schedule

The Trust files a complete schedule of portfolio holdings for the Fund with the SEC for the first and third quarters of each fiscal year on Form N-Q or Form N-PORT (available for filings after March 31, 2019). The Trust's Forms N-Q or N-PORT are available on the SEC's website at www.sec.gov and may be reviewed and copied at the SEC's Public Reference Room in Washington, DC. Information on the operation of the Public Reference Room may be obtained by calling 800-SEC-0330. The information on Form N-Q or Form N-PORT is available upon request, without charge, by calling 800-877-9700 (toll free).

Board Consideration of the Management Agreement

On an annual basis, the Board of Trustees (the "Board") of Neuberger Berman Advisers Management Trust (the "Trust"), including the Trustees who are not "interested persons" of the Trust or of Neuberger Berman Investment Advisers LLC ("Management") (including its affiliates) ("Independent Fund Trustees"), considers whether to continue the management agreement with Management (the "Agreement") with respect to Short Duration Bond Portfolio (the "Fund"). Throughout the process, the Independent Fund Trustees are advised by counsel that is experienced in Investment Company Act of 1940 matters and that is independent of Management ("Independent Counsel"). At a meeting held on October 11, 2018, the Board, including the Independent Fund Trustees, approved the continuation of the Agreement for the Fund.

In evaluating the Agreement, the Board, including the Independent Fund Trustees, reviewed extensive materials provided by Management in response to questions submitted by the Independent Fund Trustees and Independent Counsel, and met with senior representatives of Management regarding its personnel, operations, and financial condition as they relate to the Fund. The annual contract review extends over at least two regular meetings of the Board to ensure that Management has time to respond to any questions the Independent Fund Trustees may have on their initial review of the materials and that the Independent Fund Trustees have time to consider those responses.

In connection with its deliberations, the Board also considered the broad range of information relevant to the annual contract review that is provided to the Board (including its various standing committees) at meetings throughout the year, including reports on investment performance, portfolio risk, and other portfolio information for the Fund, including the use of derivatives, as well as periodic reports on, among other matters, pricing and valuation; quality and cost of portfolio trade execution; compliance; and shareholder and other services provided by Management and its affiliates. The Contract Review Committee, which is comprised of Independent Fund Trustees, was established by the Board to assist in its deliberations regarding the annual contract review. The Board has also established other committees that focus throughout the year on specific areas relevant to the annual contract review, such as Fund performance or compliance matters, and that are charged with specific responsibilities regarding the annual contract review. Those committees provide reports to the Contract Review Committee and the full Board, which consider that information as part of the annual contract review process. The Board's Contract Review Committee annually considers and updates the questions it asks of Management in light of legal advice furnished to them by Independent Counsel; their own business judgment; and developments in the industry, in the markets, in mutual fund regulation and litigation, and in Management's business model.

The Independent Fund Trustees received from Independent Counsel a memorandum discussing the legal standards for their consideration of the proposed continuation of the Agreement. During the course of the year and during their deliberations regarding the annual contract review, the Contract Review Committee and the Independent Fund Trustees met with Independent Counsel separately from representatives of Management.

Provided below is a description of the Board's contract approval process and material factors that the Board considered at its meetings regarding renewal of the Agreement and the compensation to be paid thereunder. In connection with its approval of the continuation of the Agreement, the Board evaluated the terms of the Agreement, the overall fairness of the Agreement to the Fund, and whether the Agreement was in the best interests of the Fund and its shareholders. The Board's determination to approve the continuation of the Agreement was based on a comprehensive consideration of all information provided to the Board throughout the year and specifically in connection with the annual contract review. The Board considered the Fund's investment management agreement separately from those of other funds of the Trust.

This description is not intended to include all of the factors considered by the Board. The Board members did not identify any particular information or factor that was all-important or controlling, and each Trustee may have attributed different weights to the various factors. The Board focused on the costs and benefits of the Agreement to the Fund and, through the Fund, its shareholders.

Nature, Extent, and Quality of Services

With respect to the nature, extent, and quality of the services provided, the Board considered the investment philosophy and decision-making processes of, and the qualifications, experience, and capabilities of, and the resources available to, the portfolio management personnel of Management who perform services for the Fund. The Board noted that Management also provides certain administrative services, including fund accounting and compliance services. The Board also considered Management's policies and practices regarding trade execution, transaction costs, and allocation of portfolio transactions and reviewed the quality of the execution services that Management had provided. Moreover, the Board considered Management's approach to potential conflicts of interest both generally and between the Fund's investments and those of other funds or accounts managed by Management. The Board also noted that Management had increased its research capabilities with respect to environmental, social, and corporate governance matters and how those factors may relate to investment performance.

The Board noted the extensive range of services that Management provides to the Fund beyond the investment management services. The Board noted that Management is also responsible for monitoring compliance with the Fund's investment objectives, policies, and restrictions, as well as compliance with applicable law, including implementing rulemaking initiatives of the U.S. Securities and Exchange Commission. The Board considered that Management assumes significant ongoing risks with respect to all Funds, for which it is entitled to reasonable compensation. Specifically, Management's responsibilities include continual management of investment, operational, enterprise, legal, regulatory, and compliance risks as they relate to the Fund, and the Board considers on a regular basis information regarding Management's processes for monitoring and managing risk. In addition, the Board also noted that when Management launches a new fund or share class, it assumes entrepreneurial risk with respect to that fund or share class, and that some funds and share classes have been liquidated without ever having been profitable to Management.

The Board also noted Management's activities under its contractual obligation to oversee the Fund's various outside service providers, including its renegotiation of certain service providers' fees and its evaluation of service providers' infrastructure, cybersecurity programs, compliance programs, and business continuity programs, among other matters. The Board also considered Management's ongoing development of its own infrastructure and information technology to support the Fund through, among other things, cybersecurity, business continuity planning, and risk management. In addition, the Board noted the positive compliance history of Management, as no significant compliance problems were reported to the Board with respect to Management. The Board also considered the general structure of the portfolio managers' compensation and whether this structure provides appropriate incentives to act in the best interests of the Fund. The Board also considered the ability of Management to attract and retain qualified personnel to service the Fund.

As in past years, the Board also considered the manner in which Management addressed various matters that arose during the year, some of them a result of developments in the broader fund industry or the regulations governing it. In addition, the Board considered actions taken by Management in response to recent market conditions, such as regulatory concerns about changes in fixed-income market liquidity and potential volatility, and considered the overall performance of Management in this context.

Fund Performance

The Board requested a report from an outside consulting firm that specializes in the analysis of fund industry data that compared the Fund's performance, along with its fees and other expenses, to a group of industry peers and a broader universe of funds pursuing generally similar strategies with the same investment classification and/or objective. The Board considered the Fund's performance and fees in light of the limitations inherent in the methodology for constructing such comparative groups and determining which investment companies should be included in the comparative groups.

With respect to investment performance, the Board considered information regarding the Fund's short-, intermediate- and long-term performance, net of the Fund's fees and expenses both on an absolute basis and relative to an appropriate benchmark index that does not deduct the fees or expenses of investing, compared to the performance of the industry peer group and a broader universe of funds, each constructed by the consulting firm. The Board also reviewed performance in relation to certain measures of the degree of investment risk undertaken by the portfolio managers.

Noting that the Fund underperformed over certain periods, as described below, the Board discussed with Management the Fund's performance, potential reasons for the underperformance, and, if necessary, steps that Management had taken, or intended to take, to improve performance. The Board also considered Management's responsiveness to the Fund's performance. In this regard, the Board noted that performance, especially short-term performance, is only one of the factors that it deems relevant to its consideration of the Agreement and that, after considering all relevant factors, it determined to approve the continuation of the Agreement notwithstanding the Fund's underperformance.

Fee Rates, Profitability, and Fall-out Benefits

With respect to the overall fairness of the Agreement, the Board considered the fee structure for the Fund under the Agreement as compared to the peer group provided by the consulting firm. The Board reviewed a comparison of the Fund's management fee to a peer group of comparable funds. The Board noted that the comparative management fee analysis includes, in the Fund's management fee, the separate administrative fees paid to Management. However, the Board noted that some funds in the peer group pay directly from fund assets for certain services that Management covers out of the administration fees for the Fund. Accordingly, the Board also considered the Fund's total expense ratio as compared with its peer group as a way of taking account of these differences.

The Board compared the Fund's contractual and actual management fees to the median of the contractual and actual management fees, respectively, of the Fund's peer group. (The actual management fees are the contractual management fees reduced by any fee waivers or other adjustments.) The Board also compared the Fund's total expenses to the median of the total expenses of the Fund's peer group. The Board noted that the Fund's management fee and total expenses were higher than the peer group median, and considered whether specific portfolio management, administration or oversight needs contributed to the Fund's management fee and total expenses. In addition, the Board considered the contractual limit on expenses of the Fund. In addition, the Board noted that the Fund's size, which impacts its expenses and performance, has been affected by ongoing changes in the insurance market.

In concluding that the benefits accruing to Management and its affiliates by virtue of their relationship with the Fund were reasonable in light of the costs of providing the investment advisory and other services and the benefits accruing to the Fund, the Board reviewed specific data as to Management's estimated loss on the Fund for a recent period on a pre-tax basis without regard to distribution expenses, including year-over-year changes in each of Management's reported expense categories. (The Board also reviewed data on Management's estimated loss on the Fund after distribution/servicing expenses and taxes were factored in, as indicators of the health of the business and the extent to which Management is directing its profits into the growth of the business.) The Board considered the cost allocation methodology that Management used in developing its estimated profitability figures. In 2017, the Board engaged an independent forensic accountant to review the profitability methodology utilized by Management when preparing this information and discussed with the consultant its conclusion that Management's process for calculating and reporting its estimated loss was not unreasonable. Recognizing that there is no uniform methodology within the asset management

industry for determining profitability for this purpose and that the use of different reasonable methodologies can give rise to different profit and loss results, the Board requested from Management examples of profitability calculated by different methods and noted that the estimated profitability levels were still reasonable when calculated by these other methods. The Board further noted Management's representation that its estimate of profitability is derived using methodology that is consistent with the methodology used to assess and/or report measures of profitability elsewhere at the firm. In addition, the Board recognized that Management's calculations regarding its costs may not reflect all risks, including regulatory, legal, operational, reputational, and, where appropriate, entrepreneurial risks, associated with offering and managing a mutual fund in the current regulatory and market environment. The Board also considered any fall-out (i.e., indirect) benefits likely to accrue to Management or its affiliates from their relationship with the Fund. The Board noted that Management incurred a loss on its management of the Fund during the review period.

Information Regarding Services to Other Clients

The Board also considered other funds and separate accounts that were advised or sub-advised by Management or its affiliates with investment objectives, policies and strategies that were similar to those of the Fund, and compared the fees charged to the Fund to the fees charged to such comparable funds and separate accounts. The Board considered the appropriateness and reasonableness of any differences between the fees charged to a Fund and such comparable funds and/or separate accounts, and determined that differences in fees and fee structures were consistent with the differences in the management and other services provided. The Board explored with Management its assertion that although, generally, the rates of fees paid by such accounts (other than mutual funds) were lower than the fee rates paid by the corresponding Fund, the differences reflected Management's greater level of responsibilities and significantly broader scope of services regarding the Fund, the more extensive regulatory obligations and risks associated with managing the Fund, and other financial considerations with respect to creation and sponsorship of the Fund.

Economies of Scale

The Board also evaluated apparent or anticipated economies of scale in relation to the services Management provides to the Fund. The Board considered whether the Fund's fee structure provides for a reduction of payments resulting from the use of breakpoints, the size of any breakpoints in the Fund's advisory fees, and whether any such breakpoints are set at appropriate asset levels. The Board also compared the breakpoint structure to that of the peer group. In addition, the Board considered the expense limitation and/or fee waiver arrangements that reduces Fund expenses at all asset levels which can have an effect similar to breakpoints in sharing economies of scale with shareholders and provide protection from an increase in expenses if the Fund's assets decline. The Board also considered that Management has provided, at no added cost to the Fund, certain additional services, including but not limited to, services required by new regulations or regulatory interpretations, services impelled by changes in the securities markets or the business landscape, and/or services requested by the Board. The Board considered that this is a way of sharing economies of scale with the Fund and its shareholders.

Fund Analysis

With regard to the investment performance of the Fund and the fees charged to the Fund, the Board considered the following information. The broader universe of funds referenced in this section was identified by the consulting firm, as discussed above, and the risk/return ratios referenced are the Sharpe ratios provided by the consulting firm. In the case of underperformance for one or more of the periods reflected, the Board considered the magnitude of that underperformance relative to the broader universe, as defined below, and the benchmark (e.g., the amount by which a Fund underperformed, including, for example, whether the Fund slightly underperformed or significantly underperformed its benchmark). With respect to performance quintile rankings for the Fund compared to its broader universe ("Performance Universe"), the first quintile represents the highest (best) performance and the fifth quintile represents the lowest performance. With respect to the quintile rankings for fees and total expenses (net of waivers or

other adjustments, if any) for the Fund compared to its peer group (“Expense Group”), the first quintile represents the lowest fees and/or total expenses and the fifth quintile represents the highest fees and/or total expenses.

The Board considered that, based on performance data for the periods ended December 31, 2017: (1) as compared to its benchmark, the Fund’s performance was higher for the 1-year period and lower for the 3-, 5-, and 10-year periods; and (2) as compared to its Performance Universe, the Fund’s performance was in the fourth quintile for the 1-year period, the third quintile for the 3- and 10-year periods, and the second quintile for the 5-year period. The Board considered that, as compared to its Expense Group, the Fund’s contractual management fee ranked in the fifth quintile, the actual management fee ranked in the fifth quintile, and total expenses ranked in the fourth quintile. In determining to renew the Management Agreement, the Board took into account that the Fund showed a risk/return ratio that was better than the median of its Performance Universe for the 5-year period, meaning that per unit of risk taken versus the benchmark, the Fund achieved a higher level of return than the median of its Performance Universe for that period.

Conclusions

In approving the continuation of the Agreement, the Board concluded that, in its business judgment, the terms of the Agreement are fair and reasonable to the Fund and that approval of the continuation of the Agreement is in the best interests of the Fund and its shareholders. In reaching this determination, the Board considered that Management could be expected to continue to provide a high level of service to the Fund; that the Board retained confidence in Management’s capabilities to manage the Fund; that the Fund’s fee structure appeared to the Board to be reasonable given the nature, extent, and quality of services provided; and that the benefits accruing to Management and its affiliates by virtue of their relationship with the Fund were reasonable in light of the costs of providing the investment advisory and other services and the benefits accruing to the Fund. The Board’s conclusions may be based in part on its consideration of materials prepared in connection with the approval or continuance of the Agreement in prior years and on the Board’s ongoing regular review of Fund performance and operations throughout the year, in addition to material prepared specifically for the most recent annual review of the Agreement.
